Planning Local Economic Development Nancey Green Leigh,2024-11-06 Author Nancey Green Leigh brings years of academic and professional experience to this classic text which offers a comprehensive look at the basic tenets of local economic development planning The book explores the theories of local economic development while addressing the issues and opportunities faced by cities towns and local entities in crafting their economic destinies within the global economy The new Seventh Edition is updated with an increased focus on sustainability and equity including local economic development issues arising from the global COVID 19 pandemic and significant shifts in the global economy Get Pay Right Kent

Plunkett,Heather Bussing,2024-07-05 Pay equity is no longer optional it s a legal strategic and cultural imperative Getting Pay Right explores why equitable compensation is critical to attracting talent ensuring compliance and fostering productivity As regulatory technologies evolve and employees gain greater access to pay data organizations must prioritize fairness and transparency in their compensation practices This book demystifies pay equity showing how internal fairness external competitiveness and clear communication create stronger more engaged workplaces Readers will learn how to build pay systems that comply with the law reflect shifting workforce demographics and demonstrate genuine respect for employee contributions Wise practical and forward looking this is a must read for HR leaders and executives shaping tomorrow s workplace

A Companion to Public Philosophy Lee McIntyre,Nancy McHugh,Ian Olsav,2025-11-26 The first anthology devoted to the theory and practice of all forms of public philosophy A Companion to Public Philosophy brings together in a single volume the diverse practices modalities and perspectives of this rapidly growing field Forty two chapters written by established practitioners and newer voices alike consider questions ranging from the definition of public philosophy to the value of public philosophy to both society and philosophy itself Throughout the book philosophers offer insights into the different publics they have engaged the topics they have explored the methods they have used and the lessons they have learned from these engagements The Companion explores important philosophical issues concerning the practice of philosophy in the public sphere how public philosophy relates to advocacy philosophical collaborations with political activists locations where public philosophy can be done and more Many essays highlight underserved topics such as effective altruism fat activism trans activism indigenous traditions and Africana philosophy while other essays set the stage for rigorous debates about the nature value and philosophical significance of the practice of public philosophy A Companion to Public Philosophy is essential reading for philosophers from all walks of life who are invested in and curious about the ways that philosophy can impact the public and how the public can impact philosophy It is also an excellent text for undergraduate and graduate courses on the theory and practice of public philosophy as well as broader courses on philosophy normative ethics and comparative and world philosophy *The De Gruyter Handbook of Automated Futures* Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in

response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation
