Shaping the Future of Work Chandrasekhar Sripada, 2024-07-30 The future of work will largely be shaped by demographics and technology. Essentially, how we work determines who gets to work. The more flexibility that exists both in timing and workspaces, the more people can join the workforce. In this regard, policymakers, employers, and industry bodies need to come together and create a new ecosystem to foster tech-enabled work models across the country. This book not only addresses the challenges of building an inclusive human capital framework for India but also highlights some unconventional ideas around work and models of employment which can create this much-needed inclusion. It is imperative that we adapt and shape the future of work possibilities around flexibility. By doing so, we can considerably address India's jobs and employment challenges.
