AI in Social Studies Education Christopher H. Clark,Cathryn van Kessel,2025

The introduction of widely available generative AI tools has caused a frenzy of both positive and negative reactions. Between utopian visions and apocalyptic predictions of AI's impact on education, there is a need to thoughtfully consider what education in the age of AI can and should look like. This volume focuses on the implications of AI technology for teachers in K-12 and university settings, providing a careful look at its affordances and drawbacks for social studies curriculum and teaching. Scholars specializing in the field of social studies education provide information and practical ideas for teaching with current technology alongside frameworks for thinking about future iterations of AI. This book fills a critical need, especially among educators to consider the current and potential future impacts of AI while avoiding the traps of alarmism or techno-utopianism. Whether skeptical or enthusiastic about AI, every social studies educator will find something useful to their practice in this book.

Book Features:

- First ever compilation of AI considerations and strategies in the context of social studies education.
- Nontechnical explanations of what AI can do and not do in practical educational contexts to enable educators to approach its use with careful judgment.
- Advice for educators to help them assess future iterations of AI technology.
- Critical considerations of AI across multiple contexts: e.g., ethics, equity, multilingual learners, cybersecurity.
- Work from leaders in technology and social studies education across Canada and the United States.

Career Services and Workforce Development Centers for Libraries Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18. With the rise of unemployment, increased career growth opportunities, and changing workforce demographics, libraries can support job seekers in several ways. *Career Services and Workforce Development Center for Libraries: A Guide* serves as a resource for libraries interested in creating, supporting, or enhancing their career services, economic, and workforce development programs for their communities. Going beyond collection development and hosting job fair activities, the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations, ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities, programs, and services, how academic and public librarians can support their users exploring career opportunities and development, examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities. How can one start a career services or job center program in their libraries? What are specialized career services in libraries being offered? How can libraries advocate for funding for workforce development? Divided into five chapters, each chapter addresses these questions and provides a series of examples, ideas, and resources for readers to consider replicating in their own libraries. If you are looking for ideas for your libraries to support a community of job seekers, this is the book for you. [The Times Index](#), 2011 Indexes
