AI for School Leaders Vickie F. Echols, 2024 This practical guide helps school leaders leverage the power of AI to explore possible solutions to problems and generate actionable steps toward positive change. Imagine a world where educators can boost their productivity, task management, and overall well-being with the aid of an AI assistant. In this groundbreaking book, an experienced school leader offers practical strategies for leveraging AI to support a more efficient and effective way to work. The 62 strategies in this book will help leaders, including those with limited technical knowledge, use AI tools to address critical aspects of leadership in education, such as collaborative decision making, building relationships, and trust, personalized professional learning, data analysis, and improvement, and parent and community engagement. Featured examples show how using AI can speed up or eliminate administrative tasks, leaving more time for human interaction. With detailed prompts and instructions on how to write them, the book offers fun, innovative ideas that promote work-life balance and sustainable wellness in leadership roles, with strategies for managing workload and fostering personal growth. The book follows a structured format, with each example offering a problem, solution, action steps, acceleration tips, and cautions. Shows how to formulate effective AI prompts that yield accurate and meaningful responses from AI tools. Addresses safety and ethical considerations, highlighting potential risks, challenges, and cautions school leaders need to be aware of when using AI-powered solutions. Whether you're an experienced leader or just starting out, this book equips you with the tools and insights needed to lead with confidence, collaboration, and compassion. Stay ahead of the curve and embrace the transformative potential of AI with this essential resource. Audience: Education leaders and administrators.

Conversational AI Andrew Freed, 2021-10-12 Conversational AI is a guide to creating AI-driven voice and text agents for customer support and other conversational tasks. This practical and entertaining book combines design theory with techniques for building and training AI systems. In it, you'll learn how to find training data, assess performance, and write dialog that sounds human. You'll go from building simple chatbots to designing the voice assistant for a complete call center.
