How To Get Ai Tools For Students 2025:

AI in the Classroom Ross Smith, Mayte Cubino, Emily McKeon, 2025-10-16 DESCRIPTION For thousands of years education has been shaped by technology from clay tablets and hornbooks to the printing press and now to digital learning platforms and remote education systems As artificial intelligence becomes more embedded in our daily lives its role in education continues to explode AI tools offer personalized instruction streamlined administrative tasks and enhanced student engagement creating a learning environment tailored to individual needs This book offers a guide to AI understanding and implementation in the classroom and how it makes personalized learning practical scalable and achievable for all Readers will understand how the advances in technology over time have led to improvements in education and how AI can enhance a personalized learning experience The authors go in depth to find the latest research to explore the implementation of AI strategies and technology in the classroom along with the critical and increasingly important focus on security privacy and ethical concerns By the end of this book the reader will have a robust understanding of AI and how it can help implement facilitate and augment personalized instruction strategies and techniques to support student learning and growth The future of education is here and it is intelligent adaptive and inspiring WHAT YOU WILL LEARN Leverage AI to personalize learning Prepare students for an AI integrated world Define a path for educators to navigate their professional development Clarify how this technology will influence administrators Gain insights into the ethical considerations of AI use How to communicate the benefits of AI to parents Enhance student engagement What to look out for to ensure student privacy WHO THIS BOOK IS FOR Written for educators administrators advanced students parents and policymakers looking to embrace the future of education This book will empower educators and administrators to build an innovative and inclusive educational environment with the assistance of AI Parents will benefit through deepening their understanding of AI and how it guides students toward success TABLE OF CONTENTS 1 AI and Personalized Learning 2 History of Technology in the Classroom 3 AI driven Assessment and Feedback Tools 4 Successful AI Implementations 5 Addressing Parental Concerns 6 AI for Diverse Learning Needs 7 Preparing for an AI driven Workforce 8 AI enhanced Professional Development for Educators 9 AI in Supporting Social emotional Learning 10 Data Security and Ethical Considerations in AI 11 Future of AI in the Classroom

▣ **AI-Proofing Job Interview Success** Etienne Noumen, This ebook outline a comprehensive strategy for job candidates to succeed in interview processes increasingly influenced by Artificial Intelligence AI It explain how AI is integrated into recruitment from Applicant Tracking Systems ATS screening resumes to AI powered video interviews and skills assessments The podcast emphasize the importance of optimising application materials for AI using AI ethically for preparation and understanding AI s limitations and potential biases Ultimately success requires a dual approach mastering traditional interview skills while also navigating the technical and analytical aspects introduced by AI systems alongside highlighting distinctly human qualities that AI cannot easily evaluate **Humanising Language Education in the Generative**

Artificial Intelligence Age Jérémie Bouchard, 2026-01-26 Examining the presence and influence of GenAI in the contexts of English for Academic Purposes EAP and written composition within university level English as a foreign language EFL programmes this book asserts a humanist view of language education informed by critical realism and the social realist philosophy of education Jérémie Bouchard looks at the GenAI language education interaction through explicit philosophical engagement with the aim of strengthening a critical and emancipatory approach to EAP written composition and language education By highlighting technological determinism and relating it to broader neoliberalist mechanisms the book provides new insights into the social political economic cultural and historical contexts within which the use of GenAI technologies by language teachers and learners can be understood Humanising Language Education in the Generative Artificial Intelligence Age will appeal to students and scholars of linguistics education and sociology as well as organisations devoted to understanding the evolution application and impact of GenAI on education and language learning *"Free AI Tools for Teachers 2025* Deepak D, 2025-09-18 Teaching has always been about balance balancing lessons grading parent communication and the unique needs of every student However in 2025 maintaining that balance is more challenging than ever Teachers are stretched thin and the demands of modern classrooms can feel overwhelming That's where artificial intelligence AI comes in But let me be clear this book isn't about replacing teachers with robots or adding more technology headaches to your plate It's about introducing you to free easy to use AI tools that can reduce your workload spark creativity and free up time for what matters connecting with your students When I started researching AI in education I was amazed by how many powerful tools were available at no cost Teachers were using them to draft lesson plans in minutes generate practice quizzes provide personalised feedback and even keep their classrooms more organised The more I explored the clearer it became every teacher deserves access to these tools and most importantly guidance on how to use them effectively

The 7th International Conference "Nanotechnology" (GTUnano) Levan Chkhartishvili, Mikheil Chikhradze, Laszlo Kotai, 2025-12-03 Selected peer reviewed extended articles based on abstracts presented at the 7th International Conference Nanotechnology GTUnano2024 Aggregated Book **The Handbook of Artificial Intelligence and Journalism** Aynur Sarisakaloğlu, Martin Löffelholz, 2025-12-23 Presents a comprehensive global overview of AI driven journalism and its transformative impact on media practices As artificial intelligence AI continues to reshape the media landscape The Handbook of Artificial Intelligence and Journalism provides the first comprehensive academic exploration of the intersection between AI technologies and journalism Edited by Aynur Sarisakaloğlu and Martin Löffelholz this foundational volume brings together 37 leading scholars from six continents to examine how AI is redefining the structures practices and epistemologies of journalism Organized around key thematic areas the Handbook investigates the driving forces propelling the algorithmic transformation and unveils emerging trends in journalistic practice and journalism research moving beyond Western centric perspectives to incorporate diverse global experiences and knowledge production Twenty eight original chapters address

systemic shifts such as evolving structures of media organizations changing roles of actors transformations in news production routines and shifting patterns of news consumption By integrating theoretical empirical and practical perspectives the Handbook sets the stage for a new research agenda for understanding AI driven journalism on a global scale Containing rigorous interdisciplinary scholarship and broad geographical coverage The Handbook of Artificial Intelligence and Journalism Integrates theoretical foundations empirical studies and practical applications in a cohesive structure Offers insights into journalism practices across a wide range of geographical contexts and engages with approaches that transcends Western dominated paradigms incorporating perspectives from the Global South Employs interdisciplinary frameworks to enhance the understanding of AI driven journalism Examines the sociotechnical dynamics of AI including its potential benefits and challenges for journalism Presents forward looking reflections on the future of journalism research in the AI era The Handbook of Artificial Intelligence and Journalism is ideal for undergraduate graduate and doctoral students in journalism communication and media studies programs It also serves as a vital reference for researchers educators media professionals and policy advisors engaged in digital journalism journalism research media innovation and public communication

AI Guide For Teachers 2025 Dean Jordan,2025-02-14 Transform Your Teaching with the Power of Artificial Intelligence Are you ready to revolutionize your classroom with AI AI in Education A Practical Guide for Teachers Schools is your all in one resource for harnessing artificial intelligence to streamline lesson planning automate grading enhance student engagement and reduce teacher burnout This cutting edge guide is packed with The Best AI Tools for Teachers in 2025 Discover must have AI powered apps and software that simplify your daily tasks AI Powered Lesson Planning Grading Save time with intelligent automation that personalizes learning and speeds up assessments Hands On AI Activities Projects Engage students with interactive AI driven lessons coding exercises and real world applications AI for Classroom Management Student Support Learn how chatbots and virtual assistants can enhance student interaction and provide instant feedback Step by Step AI Implementation Guide Overcome resistance measure impact and integrate AI seamlessly into your school s curriculum This isn t just another tech book it s your roadmap to a smarter more efficient and more engaging classroom experience Whether you re an AI beginner or a tech savvy educator this guide will equip you with practical strategies and real world success stories to make AI work for you Don t get left behind in the education revolution grab your copy today and take your teaching to the next level

Survey of College Students 2025, Use of College Instruction about Generative AI Primary Research Group,2025-02-12 The study looks at how students are

engaging with generative AI through institutional resources The study details use of courses websites online tutorials and other means to learn about how to use generative artificial intelligence The survey highlights the varying levels of usage and the reliance on formal and informal learning methods among college students Results are based on a 2025 representative survey of 1022 students at 4 year colleges and research universities in the USA Just a few of this 155 page report's many findings are that 30.14% of students have used academic resources provided by their institution to learn about generative AI Students at higher cost institutions 20,000 are more likely 36.03% to use academic resources compared to those at lower cost institutions 27.34% Private school students 35.90% are significantly more likely to use resources compared to public school students 28.43% International students were more avid users than domestic students of college instructional resources about generative AI Student complaints about being unable to find information about how to use AI were quite common Students face challenges such as lack of awareness institutional discouragement and unclear policies on AI use They express a need for more structured education clear guidelines and greater access to AI tools The survey suggests that while institutional resources for learning about generative AI exist most students rely on informal methods such as peers AI tools and online content There is a clear need to expand structured AI education to better support student learning
