Facebook campaigns with clarity confidence and measurable return The De Gruyter Handbook of Automated Futures
 Vaike Fors, Martin Berg, Meike Brodersen, 2024-09-23 How does automation affect us our environment and our imaginations
 What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future
 what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a
 framework for thinking about and implementing automation differently It consolidates automated futures as an inter and
 transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their
 social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the
 handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for
 social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook
 demonstrates how the humanities and social sciences are essential to the design and governance of sustainable
 sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and
 co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore
 new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation *Higher*
