Youth's Companion ,1928 *Raising Your Kids Right* Michelle Ann Abate, 2010-07-14 Dr Seuss s classic character the Lorax has delighted children for decades while passing along a powerful message about environmental responsibility The book s young readers and their parents would likely be surprised by the emergence of a new character Truax a kindly logger created by a longtime employee of the wood products industry who not surprisingly has a far different viewpoint to share Yet the Truax character and the book of the same name is just one example of a growing genre of conservative themed narratives for young readers spawned by the continuing strength of the American political right Highlighting the works of William Bennett Lynne Cheney Bill O Reilly and others Michelle Ann Abate brings together such diverse fields as cultural studies literary criticism political science childhood studies brand marketing and the cult of celebrity Raising Your Kids Right dispels lingering societal attitudes that narratives for young readers are unworthy of serious political study by examining a variety of texts that offer information ideology and even instructions on how to raise kids right not just figuratively but politically

American Farm Youth ,1949-03 **When Writing Workshop Isn't Working** Mark Overmeyer, 2024-12-27 Writing is hard work Teaching it can be even harder As most teachers know writer s workshop doesn t always go as planned and many find there are obstacles that they consistently struggle with In his role as a literacy coordinator and teacher Mark Overmeyer has heard the same issues raised again and again by both new and experienced colleagues When Writing Workshop Isn t

Working Answers to Ten Tough Questions Grades 2-5 provides practical advice to overcome these common problems and get your writing workshop back on track. Acknowledging the process-based nature of the writing workshop, this book does not offer formulaic, program-based, one-size-fits-all answers but presents multiple suggestions based on what works in real classrooms. This second edition includes updated ideas for common issues in the workshop and features new chapters on technology and resistant writers. Questions addressed in the new edition include: How can I reach resistant writers? How can I support students in their use of technology, including AI? How should I assess student writing? How do I manage writing conferences? How can I help my students revise and self-edit? This book is a handy reference tool for answering specific questions as they pop up during the year. Overmeyer uses student examples throughout to help teachers envision these solutions in their own classes, and he includes an array of classroom-tested ideas for multilingual learners. There may not be any easy answers to the complexities of the writer's workshop, but by identifying and providing advice on common stumbling blocks, the second edition of *When Writing Workshop Isn't Working* provides a solid groundwork, freeing up time and creativity for teachers to address the specific needs of their students.

In the field of education, there is a growing interest in the use of Generative Artificial Intelligence to reshape the educational landscape. Led by our esteemed Associate Editors Dr. Zapata-Rivera, Prof. Torre, and Review Editors Profs. Lee, Sarasa-Cabezuelo, Libbrecht, Dr. Ghergulescu, this editorial initiative aims to investigate the transformative potential of Generative AI in various aspects of education. By leveraging machine learning models, these intelligent systems extract useful insights from vast amounts of data, making them capable of delivering highly individualized content. They can analyze a learner's proficiency level, learning style, and pace, and then tailor the study material accordingly. Whether a learner prefers visual aids, textual content, or interactive modules, Generative AI can adapt its content generation strategies to meet distinct preferences and learners' needs. This ensures an elevated engagement level and enhanced comprehension, highlighting its potential to transform traditional teaching methodologies.
