**Digital Ecosystems: Interconnecting Advanced Networks with AI Applications** Andriy Luntovskyy, Mikhailo Klymash, Igor Melnyk, Mykola Beshley, Alexander Schill, 2024-07-29. This book covers several cutting edge topics and provides a direct follow up to former publications such as *Intent based Networking and Emerging Networking* bringing together the latest network technologies and advanced AI applications. Typical subjects include 5G, 6G, clouds, fog, leading edge LLMs, large scale distributed environments with specific QoS requirements for IoT, robots, machine and deep learning chatbots and further AI solutions. The highly promising combination of smart applications, network infrastructure and AI represents a unique mix of real synergy. Special aspects of current importance such as energy efficiency, reliability, sustainability, security and privacy, telemedicine, e learning and image recognition are addressed too. The book is suitable for students, professors and advanced lecturers for networking system architecture and applied AI. Moreover, it serves as a basis for research and inspiration for interested professionals looking for new challenges.

Career Services and Workforce Development Centers for Libraries Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18. With the rise of unemployment, increased career growth opportunities and changing workforce demographics, libraries can support job seekers in several ways. *Career Services and Workforce Development Center for Libraries: A Guide* serves as a resource for libraries interested in creating, supporting or enhancing their career services, economic and workforce development programs for their communities. Going beyond collection development and hosting job fair activities, the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations. Ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities, programs and services show academic and public librarians can support their users exploring career opportunities and development. Examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities. How can one start a career services or job center program in their libraries? What are specialized career services in libraries being offered? How can libraries advocate for funding for workforce development? Divided into five chapters, each chapter addresses these questions and provides a series of examples, ideas and resources for readers to consider replicating in their own libraries. If you are looking
