Teenagers' Perspectives on the Role of Religion in Their Lives, Schools and Societies Pille Valk, 2009. The quantitative study presented in this book is part of the research effort by the REDCo project Religion in Education: A contribution to Dialogue or a Factor of Conflict in Transforming Societies of European Countries. The project brought together nine research teams from eight European countries: England, Estonia, France, Germany, The Netherlands, Norway, Russia, and Spain. The research involved interdisciplinary cooperation between specialists in the different academic fields of education, religious education, sociology, political science, anthropology, psychology, theology, and religious studies. The book offers valuable interpretations and inspirations on the question: how do the students in the 14-16 year age group in Europe see the relevance of religions for dialogue and conflict in their daily lives in the school environment and in society as a whole.
