If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was he or she would likely claim
that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when
a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a
lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a
plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing
happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business
owners can ask their customers how they came to know about them in an effort to learn about their client base but they
cannot get as much information as they would be using online tracking The growing online market has made this type of
marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual
is in with the help of numerous professional marketers who will not necessarily appear on their payroll Therefore while its

masses You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in
the marketing world You will then learn about the importance of choosing the right niche and how to find one that will

management agencies super affiliates and specialized third party vendors Affiliate marketing overlaps with other Internet marketing methods to some degree because affiliates often use regular advertising methods Those methods include organic search engine optimization SEO paid search engine marketing PPC Pay Per Click e mail marketing content marketing and in some sense display advertising On the other hand affiliates sometimes use less orthodox techniques such as publishing reviews of products or services offered by a partner Affiliate marketing is commonly confused with referral marketing as both forms of marketing use third parties to drive sales to the retailer However both are distinct forms of marketing and the main difference between them is that affiliate marketing relies purely on financial motivations to drive sales while referral marketing relies on trust and personal relationships to drive sales
