Proceedings of the International Conference on Technology 4 Education 2024 Volume Two *Impact and implications of AI methods and tools for the future of education* Kingsley Okoye, Samira Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07

The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development oriented projects and creation mobilization of technological initiatives on how to re imagine education and operationalize the use of digital technologies for its purpose. The Digitized Education Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals SDGs particularly the SDG4 that promotes quality of education. *Encyclopedia of Children, Adolescents, and the Media* Jeffrey Jensen Arnett, 2006-12-14 From Internet censorship to sex and violence on television and in video games to debates over rock lyrics the effect of media on children and adolescents is one of the most widely debated issues in our society. The Encyclopedia of Children Adolescents and the Media presents state of the art research and ready to use facts on the media s interaction with children and adolescents. With more than 400 entries the two volumes of this resource cover the traditional and electronic media and their controversial impact for good and ill on children and adolescents.
