Whitaker,2022-10-10 Many things define a job seeker experience education first impressions connections passion and the value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with

their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps **CIO** ,2007-12-31

Conflict, Continuity, and Change in Social Movements in Southeast Asia Abdul Rohman,2022-07-11 This book demonstrates how preserving ideology and relationships with other activists affords social movements to persist over time amid limited resources and political opportunities in Southeast Asia Examining two peace movements in Indonesia the largest democratic country in Southeast Asia to illuminate discontinuity continuity and change in social movements the author uses a cultural approach to understanding why social movements persist He argues that the activists memory relationship with others collective identity and emotion are reasons for social movements to ascend and peak This is a direct response to the argument that the availability of resources and political opportunities is the main ingredient for any social movements to rise While having different fates the two movements studied arose in the midst of violence between Christian and Muslim communities in Ambon Indonesia The Kopi Badati movement and Filterinfo The book extends the applicability of the cultural approach in explaining why social movements discontinue continue and change over time without discounting the importance of available resources and political opportunities Addressing a gap in the existing social movement studies the book explains why a social movement disbands and why the other manages to continue and change after achieving its immediate goal It will be of interest to academics in the fields of Asian studies new media and communications civil society and international development **Annual Editions: Mass Media 09/10** Joan Gorham,2009-02-09 Annual Editions is a series of over 65 volumes each designed to provide convenient inexpensive access to a wide range of current articles from some of the most respected magazines newspapers and journals published today Annual Editions are updated on a regular basis through a continuous monitoring of over 300 periodical sources The articles selected are authored by prominent scholars researchers and commentators writing for a general audience The Annual Editions volumes have a number of
