Non-Bullshit Innovation David Rowan, 2019-05-16 updated with new material Digital transformation and disruptive innovation used to be empty buzzwords serving to justify pointless box ticking and absurd corporate posturing And then a global pandemic suddenly forced every kind of organization to embrace genuine urgent innovation as a matter of survival But how can we ensure that the non bullshit version of innovation delivers economic recovery at this crucial moment Are there strategies we can all adapt from the world s most creative leaders to innovate effectively in our own lives David Rowan founding editor in chief of WIRED UK embarked on a twenty country quest to find out Packed full of tips for anyone looking for radical ways to adapt and thrive in the digital age this carefully curated selection of stories will prepare you for whatever the future may bring because the world will never move this slowly again _____ In this remarkable book David Rowan tells a story of transformation how an organisation has found a new way of doing things through innovation driven by ruthless entrepreneurial imagination What is especially useful is that he does not just stick with small startups let alone dreamy inventors He finds innovation in big companies and even within governments Matt Ridley The Times As Public as Possible David I. Backer, 2025-12-02 A witty and provocative treatise on the financial policies we ll need to make our public schools work for all children From the anti CRT panic to efforts to divert tax dollars to charter schools the right wing attack on education has cut deep In response millions of Americans have rallied to defend their cherished public schools But this incisive book asks whether choosing between our embattled status quo and the stingy privatized vision of the right is the only path forward In As Public as Possible education expert David I Backer argues for going on the offensive by radically expanding the very notion of the public in our public schools Helping us to imagine a more just and equitable future As Public as Possible proposes a concrete set of financial policies aimed at providing a high quality and truly public education for all Americans regardless of wealth and race With witty and provocative prose Backer shows how we can decouple school funding from property tax revenue evening out inequalities across districts by distributing resources according to need He argues for direct federal grants instead of the predations of municipal debt markets And he offers eye opening examples spanning the past and present from the former Yugoslavia to contemporary Philadelphia which help us to imagine a radically different way of financing the education of all of our children The Friction Project Robert I. Sutton, Huggy Rao, 2024-01-30 The definitive guide to eliminating the forces that make it harder more complicated or downright impossible to get things done in organizations Find out why Adam Grant says If every leader took the ideas in this book seriously the world would be a less miserable more productive place Every organization is plagued by destructive friction Yet some forms of friction are incredibly useful and leaders who attempt to improve workplace efficiency often make things even worse Drawing from seven years of hands on research The Friction Project by bestselling authors Robert I Sutton and Huggy Rao teaches readers how to become friction fixers Sutton and Rao kick off the book by unpacking how skilled friction fixers think and act like trustees

of others time They provide friction forensics to help readers identify where to avert and repair bad organizational friction and where to maintain and inject good friction Then their help pyramid shows how friction fixers do their work from reframing friction troubles they can't fix right now so they feel less threatening to designing and repairing organizations The heart of the book digs into the causes and solutions for five of the most common and damaging friction troubles oblivious leaders addition sickness broken connections jargon monoxide and fast and frenzied people and teams Sound familiar Sutton and Rao are here to help They wrap things up with lessons for leading your own friction project including linking little things to big things the power of civility caring and love for propelling designs and repairs and embracing the mess that is an inevitable part of the process while still trying to clean it up
