Guerilla Marketing on the Internet: The Definitive Guide from the Father of Guerilla Marketing Jay Conrad Levinson, Mitch Meyerson, Mary Eule Scarborough, 2008-07-02 The Father of Guerrilla Marketing conquers the newest marketing frontier Levinson offers you a step by step system on how to apply the proven acirc euro oelig Guerrillaacirc euro yen strategies to the ultimate marketing weapon the Internet Its enormous appeal is the focus on how to achieve greater visibility and increased profits through energy time and imagination rather than big marketing dollars You learn how to level the playing field by gaining traffic to your website convert visitors into paying customers and ultimately take your business to new levels of profitability and efficiency

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of Burn In An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society

and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order The People's Platform Astra Taylor, 2014-03-04 From a cutting edge cultural commentator and documentary filmmaker a bold and brilliant challenge to cherished notions of the Internet as the great democratizing force of our age The Internet has been hailed as a place where all can be heard and everyone can participate equally But how true is this claim In a seminal dismantling of techno utopian visions The People's Platform argues that for all that we tweet and like and share the Internet in fact reflects and amplifies real world inequities at least as much as it ameliorates them Online just as off line attention and influence largely accrue to those who already have plenty of both What we have seen in the virtual world so far Astra Taylor says has been not a revolution but a rearrangement Although Silicon Valley tycoons have eclipsed Hollywood moguls a handful of giants like Amazon Apple Google and Facebook still dominate our lives And the worst habits of the old media model the pressure to be quick and sensational to seek easy celebrity to appeal to the broadest possible public have proliferated online where every click can be measured and where aggregating the work of others is the surest way to attract eyeballs and ad revenue In a world where culture is free creative work has diminishing value and advertising fuels the system the new order looks suspiciously just like the old one We can do better Taylor insists The online world does offer an unprecedented opportunity but a democratic culture that supports diverse voices work of lasting value and equitable business practices will not appear as a consequence of technology alone If we want the Internet to truly be a people's platform we will have to make it so As Public as Possible David I. Backer, 2025-12-02 A witty and provocative treatise on the financial policies we'll need to make our public schools work for all children From the anti CRT panic to efforts to divert tax dollars to charter schools the right wing attack on education has cut deep In response millions of Americans have rallied to defend their cherished public schools But this incisive book asks whether choosing between our embattled status quo and the stingy privatized vision of the right is the only path forward In As Public as Possible education expert David I Backer argues for going on the offensive by radically expanding the very notion of the public in our public schools Helping us to imagine a more just and equitable future As Public as Possible proposes a concrete set of financial policies aimed at providing a high quality and truly public education

for all Americans regardless of wealth and race With witty and provocative prose Backer shows how we can decouple school funding from property tax revenue evening out inequalities across districts by distributing resources according to need He argues for direct federal grants instead of the predations of municipal debt markets And he offers eye opening examples spanning the past and present from the former Yugoslavia to contemporary Philadelphia which help us to imagine a radically different way of financing the education of all of our children Marketing Gary M.
