Background

Summary

I am a graduating high school senior who will be attending the University of Arkansas - Fayetteville in the Fall of 2015. My goal is to graduate with a bachelor's degree in Biology from the U of A and then attend the University of Central Arkansas to receive a master's degree in Occupational Therapy and become a certified Occupational Therapist. I am hoping to then work with children with developmental delays. Along with my passion for biology, I also love marketing and communication.

Personal Brand On LinkedIn For High School Students:

Online Personal Brand Ryan M. Frischmann, 2014-07-19 Online personal branding is a requirement for all professionals. The common argument of the experts is you have a digital footprint in social media and on the internet so people are already making impressions of you. Take control of their perceptions. More importantly you have an opportunity to proactively project your personal brand onto networks. Two other advantages of personal branding are that it forces you to be visionary of your career goals and helps you land favorable employment. This book shares a functional angle to personal branding that is refreshingly simpler than the traditional marketing angle. The definition of an online personal brand is the combination of a skill set, an aura, and an identity, and there is discussion where the concepts overlap. *Multimodal Composing* Lindsay A. Sabatino, Brian Fallon, 2019-04-15 Multimodal Composing provides strategies for writing center directors and consultants working with writers whose texts are visual, technological, creative, and performative texts they may be unaccustomed to reading, producing, or tutoring. This book is a focused conversation on how rhetorical design and multimodal principles inform consultation strategies, especially when working with genres that are less familiar or traditional. Multimodal Composing explores the relationship between rhetorical choices, design thinking, accessibility, and technological awareness in the writing center. Each chapter deepens consultants' understanding of multimodal composing by introducing them to important features and practices in a variety of multimodal texts. The chapters' activities provide consultants with an experience that familiarizes them with design thinking and multimodal projects, and a companion website www.multimodalwritingcenter.org offers access to additional resources that are difficult to reproduce in print and includes updated links to resources and tools. Multimodal projects are becoming the norm across disciplines, and writers expect consultants to have a working knowledge of how to answer their questions. Multimodal Composing introduces consultants to key elements in design technology, audio, and visual media and explains how these elements relate to the rhetorical and expressive nature of written, visual, and spoken communication. Peer graduate student, professional tutors, and writing center directors will benefit from the activities and strategies presented in this guide.
