The New Patriarchs of Digital Capitalism Ben Little, Alison Winch, 2021-06-23 This book offers an original critique of the billionaire founders of US West Coast tech companies addressing their collective power influence and ideology their group dynamics and the role they play in the wider sociocultural and political formations of digital capitalism Interrogating not only the founders political and economic ambitions but also how their corporations are omnipresent in our everyday lives the authors

provide robust evidence that a specific kind of patriarchal power has emerged as digital capitalism's mode of command. The New Patriarchs examined over the course of the book include Sergey Brin and Larry Page of Google, Elon Musk of Tesla, Jeff Bezos of Amazon, Mark Zuckerberg of Facebook, and Peter Thiel. We also include Sheryl Sandberg. The book analyses how these mostly men legitimate their rapidly acquired power, tying a novel kind of socially awkward but visionary masculinity to exotic forms of shareholding. Drawing on a ten million word digital concordance, the authors intervene in feminist debates on patriarchy, masculinity, and postfeminism, locating the power of the founders as emanating from a specifically racialised structure of oppression tied to imaginaries of the American frontier, the patriarchal household, and settler colonialism. This is an important interdisciplinary contribution suitable for researchers and students across Digital Media, Media and Communication, and Gender and Cultural Studies.

**Broken Windows, Broken Business** Michael Levine, 2021-05-11. Now revised and updated, this inspired, impactful, and important book shows how to achieve the ultimate success by rectifying the small problems that can sink a business. Stephen R. Covey, author of *The 7 Habits of Highly Effective People*. Once every few years, a book comes along with an insight so penetrating, so powerful, and so simply demonstrably true that it instantly changes the way we think and do business. Such a book is *Broken Windows, Broken Business*, a breakthrough in management theory that can alter the destiny of countless companies striving to stay ahead of their competition. In this vital work, author Michael Levine offers compelling evidence that problems in business, large and small, typically stem from inattention to tiny details. Social psychologists and criminologists agree that if a window in a building is broken and left unrepaired, soon thereafter the rest of the windows will be broken, and the perception will build that crime in that neighborhood is out of control. The same principle applies to business. Drawing on real-world corporate examples from JetBlue's decision to give fliers what they really want—leather seats, personal televisions, online ticketing—to Google's customer-based strategy for breaking out of the pack of Internet search engines, to business-to-business firms' successes and failures, Levine proves, again and again, how constant vigilance and an obsession with detail can make or break a business or a brand. With tips and advice on changing any business to one that dots its i's, crosses its t's, and attracts more clients, *Broken Windows, Broken Business* goes straight to the heart of what makes all enterprises successful: the little things that mean a lot.

*Secondary English for Generation Alpha* Lorna Smith, 2025-06-13. *Secondary English for Generation Alpha* seeks to promote a humane, responsive, and creative pedagogy for English that will develop and enrich understanding and enjoyment of language in all its forms: speaking, listening, reading, and writing, and help students develop into successful members of their home and wider communities. Generation Alpha children, born between 2010 and 2025, are growing up amid unprecedented challenges, local, national, and global, that threaten social justice. The authors of this book see subject English as one means of supporting Generation Alpha to meet these challenges and provide them with the necessary skills and knowledge to fit them for a changing world. Responding to tendencies to standardise and centralise curriculum, pedagogy, and teacher education, the book

explores the ways in which subject English can draw on local contexts and expertise in schools universities and communities to address local needs and interests demonstrating how what we learn locally can be relevant beyond The chapters in this volume represent work being done individually and collectively in settings across England by teacher educators in universities and other centres alongside their partnership schools By describing their own practice in English classrooms the authors hope to empower others in England but also beyond simultaneously producing both a broad and an in depth exploration of the subject Secondary English for Generation Alpha emerges from the world of initial teacher education yet takes ideas from current research and makes them relevant to teachers and those interested in English teaching in schools in any context
