Doing Marketing Research Alison Lawson, Charles Hancock, 2025-03-31 Traditional research methods in marketing can be illuminating when used well but all too often their results fail to provide the depth of understanding that organisations need to anticipate market needs Doing Marketing Research enables researchers to get greater depth and meaning from their research and organisations to make smarter strategic decisions

This unique book explains market sensing simply and practically and demonstrates how it can benefit researchers. It teaches non mainstream and alternative research methods which facilitate innovative research design and achieve deep insights into the mindsets of consumers. The methods explored in this book include sensory research using ZMET, discourse analysis, consumer ethnography, social media networks, narrative and storytelling, and gamification. This second edition has been fully updated to include several new chapters covering newer methods and topics including the Delphi method, archival research, visual methods, and the decolonisation of research. With a wealth of examples, diverse case studies, and pedagogy such as seminar activities to aid student learning, this textbook is recommended and core reading for advanced undergraduate and postgraduate students studying marketing research and business research methods more generally, as well as marketing practitioners. Online resources include PowerPoint lecture slides. Principles of Strategic Communication Derina Holtzhausen, Jami Fullerton, Bobbi Kay Lewis, 2025-10-31. Now in a second edition, this book introduces students to the theories of strategic communication and their application to everyday practice. Key updates to the second edition include the use of artificial intelligence in the practice of strategic communication and a focus on health communication and crisis communication in the wake of a global pandemic, personal branding, social responsibility in an era of disinformation, and the addition of models for ethical decision making. It also features a completely updated chapter on new media and media metrics. Each chapter includes introductory learning outcomes, updated case studies, a career profile of a current practitioner, end of chapter discussion questions, and boxes that highlight theory and research, as well as the strategic communication industry insights. *Principles of Strategic Communication Second Edition* is ideal as a core text for undergraduate students in strategic communication courses within media communication, marketing, and advertising programs. The accompanying online resources feature chapter summaries, useful links to examples of strategic communication in action, suggested further reading, and sample test questions. Instructors will find an instructor's resource manual that includes sample syllabi, class activities, lecture topics, and a test bank. New to this edition are PowerPoint slides for each chapter.
