through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed. We do know however that Instagram is looking at the following: Timely content. This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts. They'll be shown timely content that matters to them. Interest. This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in. Relationships. Instagram knows what photos users tag and where they comment. So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future. For marketers this is a great thing. It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience. A few notes about Instagram Shopping. With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace. While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform. For businesses that want to enable the Shopping capability they need to meet the following requirements. You must have an Instagram business profile. That business profile needs to be connected to a Facebook catalog. Your company's registered headquarters location must be located in one of the Instagram approved countries. Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram. As this Instagram Marketing Guide is intended as a resource for those getting started with Instagram marketing we will not be providing a deep dive of the Instagram Shopping capability. Instagram Influencer Marketing Adversiting 2021 Mark J. Cook, 2020-11-30. At first some people get into Instagram to socialize and for fun. Anyway it is a better way to share some of your personal photos and perhaps show off. In addition Instagram can be used for an effective and fruitful marketing strategy. Most of the people on Instagram are unaware that you can make their business more visible. However this becomes better when you have clearly identified your niche. Most of the prevalent niches are fashion, health and fitness, travel and tourism, and beauty. It should not be an issue if your business does not fall under any of these niches. Start by evaluating the most appropriate niche for your business which makes you unique. There is an Instagram niche for everyone whether you are a succulent grower, food blogger, nature lover, or a travel marketer. You just need to find your niche and stick to it. Doing this may not be easy, take time deliberating the best choice. It also requires accuracy and patience. For effective Instagram marketing you must be sure that the content you share through Instagram will reflect the values that you represent as a brand.
