 to service sector growth in many economies Offshore outsourcing online outsourcing and crowdsourcing are heavily reliant  
 on the Internet to provide economical access to remote workers and frequently leverage technology to manage workflow to  
 and from the employer Much computer freelance work is being outsourced to developing countries outside the United States  
 and Europe Freelance marketplaces provide a marketplace for freelancers and buyers Service providers or sellers create a  
 profile where they include a description of the services they offer examples of their work and in some cases information  
 about their rates Buyers register and complete a basic profile and then post projects outlining their requirements Buyers will  
 then bid for these projects on a fixed price or hourly basis 29 Many of these websites have user review sections that affect  
 the reputation of freelancers who list there and which may be manipulated Freelance marketplaces have globalized  
 competition for some jobs allowing workers in high and low income countries to compete with one another According to a  
 2016 study by the McKinsey Global Institute 15% of independent workers used online marketplaces to find work These

*After the Pandemic* Randy Whitaker, 2022-10-10 Many things define a job seeker experience education first impressions connections passion and the value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more

responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps
