, Large Language Models Oswald Campesato, 2024-10-02 This book begins with an overview of the Generative AI landscape distinguishing it from conversational AI and shedding light on the roles of key players like DeepMind and OpenAI It then reviews the intricacies of ChatGPT GPT 4 and Gemini examining their capabilities strengths and competitors Readers will also gain insights into the BERT family of LLMs including ALBERT DistilBERT and XLNet and how these models have revolutionized natural language processing Further the book covers prompt engineering techniques essential for optimizing the outputs of AI models and addresses the challenges of working with LLMs including the phenomenon of hallucinations and the nuances of fine tuning these advanced models Designed for software developers AI researchers and technology enthusiasts with a foundational understanding of AI this book offers both theoretical insights and practical code examples in Python Companion files with code figures and datasets are available for downloading from the publisher *Multidisciplinary Approaches in AI, Creativity, Innovation, and Green Collaboration* Fields, Ziska, 2023-05-01 Creativity must be turned into innovation that adds value and leads to strategic action Innovation is often associated with Silicon Valley expensive research and development departments and expensive commercialization that primarily benefits a small portion of the world s population A small portion of the world s population working together to solve wicked green problems is not enough either Green creativity and eco innovation are necessary to help solve green problems by making products and services available and affordable to the masses Multidisciplinary Approaches in AI Creativity Innovation and Green Collaboration focuses on the importance of green creativity eco innovation and collaboration to create a more sustainable world It builds on the available literature and joint expertise in the field of management while providing further research opportunities in this dynamic field Covering topics such as eco leadership green marketing and social responsibility communication this premier reference source is a comprehensive and timely resource for government officials decision makers business leaders and executives students and educators of higher education librarians researchers and academicians Popular Science ,1946-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Recreating Creativity, Reinventing Inventiveness Nikos Koutras, Niloufer Selvadurai, 2024-04-02 As artificial intelligence AI is increasingly used to generate inventions and creative works a critical question to be addressed is whether intellectual property IP laws should protect such works This book examines the critical question of whether intellectual property laws should protect works generated by artificial intelligence If we do not wish to use IP laws to protect such works how can we still support research development and innovation in society If we do wish to use IP laws to protect such works should the copyright patents and other IP rights attach to the human creator of the AI technology or the AI system The book explores these compelling societal economic and legal issues The authors evaluate the continuing relevance

of existing laws explore the divergent approaches being debated by nations around the world and present visions for change. The book will enable both lawyers and non lawyers to reimagine governance frameworks to create laws that equitably balance the interests of creators, investors and end users of AI generated works.

Artificial Intelligence and Education: an Ongoing Dialogue Otto Federico Von Feigenblatt, Óscar Yecid Aparicio Gómez, 2024-06-01. The present volume explores the broad impact of artificial intelligence in education by presenting a broad range of perspectives from some leading experts in the field. An initial chapter tackles macro level considerations from a social and anthropological perspective. Further chapters explore more specific topics ranging from philosophical aspects to the implications of AI in pedagogy and andragogy. The final chapter attempts to integrate the disparate aspects of the dialogue into a cohesive voice.
