Church Militant Graham R. Smith, 2016-11-08 A worldview of spiritual warfare is widely held among charismatics and Pentecostals but it has been criticized for producing paranoia and denying personal responsibility It is less well known that the term was first used in print around 1970 by Anglican charismatics What did it mean to them then and what are the practical effects of their worldview Should we now be adopting a more sophisticated ontology of evil such as Nigel Wright's non ontological realist view or Amos Yong's apophatic theology of the demonic rather than the traditional one that Satan and demons are real ontological entities This practical theological study begins with a study of Anglican charismatic pioneers and an in depth case study of a charismatic Anglican congregation before grappling with the ontological question in dialogue with Wright together with Barth and Walter Wink Yong and Gregory Boyd A fresh engagement with the biblical texts then argues for a positive realist ontology for rebellious demonic powers and presents a Trinitarian model of spiritual warfare praxis that emphasizes personal responsibility and promotes freedom from fear **Innermost Asia; Detailed Report of Explorations**

Gospels examining them as narratives It shows how the authors were in the process of developing the devil as a character and determining which roles he filled New interpretations of individual passages in the Gospels are given as well as new understandings of the theological emphases of each author This study is also a contribution to redaction criticism and the relative chronology of the Gospels It employs the theory of Matthean posteriority which revolutionizes our understanding of the literary relations between the Gospels and allows for a new understanding of theological development in early Christianity
