Denmark Kenneth E. Miller,1987 Crossing Boundaries Eric Cambridge,Jane Hawkes,2017-04-30 Interdisciplinary studies are increasingly widely recognised as being among the most fruitful approaches to generating original perspectives on the medieval past In this major collection of 27 papers contributors transcend traditional disciplinary boundaries to offer new approaches to a number of themes ranging in time from late antiquity to the high Middle Ages The main focus is on material culture but also includes insights into the compositional techniques of Bede and the Beowulf poet and the strategies adopted by anonymous scribes to record information in unfamiliar languages Contributors offer fresh insights into some of the most iconic survivals from the period from the wooden doors of Sta Sabina in Rome to the Ruthwell Cross and from St Cuthbert s coffin to the design of its final resting place the Romanesque cathedral at Durham Important thematic surveys reveal early medieval Welsh and Pictish carvers interacting with the political and intellectual concerns of the wider Insular and continental world Other contributors consider what it is to be Viking revealing how radically present perceptions shape our understanding of the past how recent archaeological work reveals the inadequacy of the traditional categorisation of the Vikings as incomers and how recontextualising Viking material culture can lead to unexpected insights into famous historical episodes such as King Edgar s boat trip on the Dee Recent landmark finds notably the runic inscribed Saltfleetby spindle whorl and the sword pommel from Beckley are also published here for the first time in comprehensive analyses which will remain the fundamental discussions of these spectacular objects for many years to come This book will be indispensable reading for everyone interested in medieval culture *A Research Guide to the Ancient World* John M. Weeks,Jason de Medeiros,2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing
