Denmarks Policy Towards Europe After 1945 History Theory And Options:

Denmark and the European Union Lee Miles, Anders Wivel, 2013-07-31 This book offers an accessible coherent and comprehensive analysis of the recent contemporary and future challenges and possibilities facing Denmark in the European integration process The book traces the formal as well as the informal ways of influence and adaptation in Denmark's relations with the European Union In doing so it also offers a contribution to our understanding of Europe as a differentiated political arena Topics covered include Identifying the challenges and opportunities of Danish EU membership via the policies pursued by Denmark in Europe The ways in which Denmark adapts to the European integration process Consequences of EU integration for citizen rights democracy policy coordination and implementation efficiency Denmark and the European Union will be of interest to students and scholars of European Union and integration politics *European Integration and National Identity* Lene Hansen, Ole Waever, 2003-08-29 The four Nordic countries Denmark Finland Sweden and Norway have all held referenda on their relationship to the European Union in the 1990 s These referenda catalysed heated debates should Finland and Sweden give up neutrality Should Denmark follow the European Union's move towards higher degrees of integration And had there been enough change in Norway to reverse the rejection of European Community membership in 1972 These key questions about the future of European integration are addressed in this highly topical book by examining the crucial role played by national identity *Opposing Europe?: The Comparative Party Politics of Euroscepticism* Aleks Szczerbiak, Paul Taggart, 2008-04-24 The project of European integration now spans Europe but in becoming bigger and broader the European Union has brought on itself significant criticism As the EU becomes deeper wider and more ambitious so opposition and scepticism become more prominent for citizens and more problematic for elites Concerns about a democratic deficit and the distance between European elites and publics have come to be a common feature of European politics As a consequence Euroscepticism has become a part of the terrain of conflict between political parties across Europe *Opposing Europe* provides the first comprehensive review of party based Euroscepticism across the breadth of contemporary Europe and the first in depth comparative academic study of Euroscepticism This the first of two volumes is made up of chapters that map describe and analyse Euroscepticism in the party systems of a range of countries and the European Parliament Each is written to a common frame of reference that differentiates hard and soft Euroscepticism The volume looks across Europe and includes EU member states and candidate and non member states in order to draw out comparative lessons that relate to the nature of political parties party systems and the domestic politics of European integration *Opposing Europe* is a groundbreaking state of the art book that provides a definitive review of a key issue in European politics It is also one of the few attempts to integrate the fields of EU studies with both West European and East European studies in order to draw lessons about the way in which the EU interacts with domestic politics in both member and non member states Examining the way that parties position themselves and compete on the European issue provides powerful lessons for the

trajectory of the European integration project more generally and on the prospects for the emergence of a European political system and polity *Opposing Europe?: Case studies and country surveys* Aleks Szczerbiak, Paul A. Taggart, 2008

European Myths Sam-Sang Jo, 2007 The history of the European Community European Union's EC EU development is a narrative of crises generated and resolved To date the resolution of crises in community affairs has furthered European integration The characteristic pattern of integration is dialectical two steps forward and one step back with crises both accounting for the steps backward and forward This book examines why the crises were constructively resolved rather than the often explored how of the resolutions This work contends that European myths which emerged from Europe's cataclysmic experiences in World War I and II cement the member states within the EC EU and lead to greater social economic and political integration with the EC EU During the periodic crises the European myths have eliminated every choice except the choice to move European integration forward Professor Sam Sang Jo's analysis argues that once the European myths weaken the tensions among EU member states are likely to escalate

Denmark's Policy Towards Europe After 1945 Hans Branner, Morten Kelstrup, 2000 Since 1945 Denmark's policy towards Europe has become one of the most important issues in Danish politics Part of the Copenhagen Research Project on European Integration CORE this book aims to provide the reader with a better understanding of Danish policy towards Europe taking into account both historical and theoretical aspects

Beyond the Border Tobias Haimin Wung-Sung, 2019-03-27 In the nineteenth century the hotly disputed border region between Denmark and Germany was the focus of an intricate conflict that complicates questions of ethnic and national identity even today *Beyond the Border* reconstructs the experiences of both Danish and German minority youths living in the area from the 1950s to the 1970s a period in which relations remained tense amid the broader developments of Cold War geopolitics Drawing on a remarkable variety of archival and oral sources the author provides a rich and fine grained analysis that encompasses political issues from the NATO alliance and European integration to everyday life and popular culture

In Search of Security After the Collapse of the Soviet Union Fredrik Doeser, 2008 **European Peripheries in Interaction** Luis Beltrán, Javier Maestro, Liisa Salo-Lee, 2002 **National Parliaments on Their Ways to Europe** Andreas Maurer, Wolfgang Wessels, 2001 Gennemgang af de nationale parlamenter tilpasning til udviklingen i EU's institutioner og procedurer *The Cold War and the Nordic Countries* Thorsten B. Olesen, 2004 During the Cold War the Nordic Countries were walking a tightrope being located in the vicinity of the USSR dominated red empire This book contains five articles that evaluate Nordic Cold War research within its national context with each contribution pointing to what has so far been achieved by existing research what progress is to be expected from projects under way and what seem to be the most important gaps to be filled in the future Attention is given predominantly to presenting and discussing studies which have appeared in the post Cold War period with the exception of the Swedish contribution which presents a more general outline of Cold War research Following these national contributions the book concludes by taking up the comparative challenge The

book is a logical point of departure for researchers who want to work with Nordic Cold War history especially on a truly comparative basis

Disputed Territories and Shared Pasts Tibor Frank, Frank Hadler, 2011-01-15 National historical writings in Europe traditionally deal with acts of aggression hostile neighbours and international conflicts across borders presenting history as a narrative of suffering and victories For centuries national histories have been constructed as sequences of battles and wars with war heroes playing key roles Yet major victories for any one nation invariably cause tragedies for others Historians in different national communities have written comparable histories about their shared pasts in contested territories it is this phenomenon that we call overlapping national histories in this book *Disputed Territories Shared Pasts* focuses on the historiographical overlaps in Europe presenting many of the contested areas alongside state borders in historical regions between states and among ethnic groups and nations within states Sponsored by the European Science Foundation the present volume is part of the *Writing the Nation* series a major international project on the history of historiography in Europe Back cover

EU Enlargement and Beyond Helmut Hubel, 2002 During the 1990s the EU emerged as a key actor in the Baltic Sea area The EU integration process of the three Baltic States Estonia Latvia and Lithuania exhibits specific challenges i e post Soviet legacies moreover dealing with Russia as a neighbor raises several questions particularly future policies towards the exclave of Kaliningrad

Challenges in Agricultural and Rural Development in Central and Eastern Europe Joost Platje, Janusz Słodczyk, 2004

National Parliaments and European Democracy Jit Peters, Olaf Tans, Carla M. Zoethout, 2007 This book engages in the vivid debate about the role of national parliaments in the future European democracy These parliaments are widely regarded to be essential in reducing the European Union's democratic deficit but it remains unclear how their function should be organized The purpose of this volume is to contribute to such a regime on the basis of a comparative analysis of scrutiny systems as they exist today

Acquisition and Loss of Nationality Rainer Bauböck, 2006 Nationality and citizenship have been subjects of stormy policy debates in many EU countries in recent years Concerns over the integration of immigrants but also attempts to forge links with emigrants have led to changes in the laws regulating loss and acquisition of nationality and citizenship This title outlines the research conducted by a team of 30 researchers into the nationality laws and their implementation in 15 EU member states Volume 2 of this study presents detailed studies of each country's nationality laws their historical background and current provisions It is a companion to volume 1 which contains comparative analyses based on a novel methodology that permits a detailed comparison how nationality can be acquired or lost across all 15 countries The results show divergent trends towards liberalization in some countries and new restrictions of access to nationality in others Volume 1 also examines the impact of international and European law presents statistical data on naturalisation and assesses administrative practices Although the European Union has no formal competence in regulating nationality the nationality laws of member states are

linked to each other via the common citizenship of the Union Member States should therefore agree on common norms for their nationality laws Volume 1 contains detailed policy recommendations based on the idea that stakeholders in the political community should be given access to nationality In addition to the two volumes detailed statistics and further comparative analyses of legal regulations of nationality are available at www.imiscoe.org Volume 1 2 are also available as a set [click here](#) for more information This is the most comprehensive comparative study of the legal status of nationality so far and it will become an indispensable source of reference for further research For more information see <http://www.imiscoe.org/natac>
