Dennis Adams Dennis Adams, Mary Anne Staniszewski, 1990 Dennis Adams Mary Anne Staniszewski, 1990 Orientalism Revisited Ian Netton, 2012-12-12 The publication of Edward Said's Orientalism in 1978 marks the inception of orientalism as a discourse Since then Orientalism has remained highly polemical and has become a widely employed epistemological tool Three decades on this volume sets out to survey analyse and revisit the state of the Orientalist debate both past and present The leitmotiv of this book is its emphasis on an intimate connection between art land and voyage Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or pilgrimage a relationship which until now has received little attention Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose this book brings together a diversity of opinions analyses and arguments From a Nation Torn Hannah Feldman, 2014-02-03 From a Nation Torn provides a powerful critique of art history s understanding of French modernism and the historical circumstances that shaped its production and reception Within art history the aesthetic practices and theories that emerged in France from the late 1940s into the 1960s are demarcated as postwar Yet it was during these very decades that France fought a protracted series of wars to maintain its far flung colonial empire Given that French modernism was created during rather than after war Hannah Feldman argues that its interpretation must incorporate the tumultuous decades of decolonization and their profound influence on visual and public culture Focusing on the Algerian War of Independence 1954 1962 and the historical continuities it presented with the experience of the Second World War Feldman highlights decolonization's formative effects on art and related theories of representation both political and aesthetic Ultimately From a Nation Torn constitutes a profound exploration of how certain populations and events are rendered invisible and their omission naturalized within histories of modernity Who's Who in American Art, 1991-1992 Bowker Editorial Staff, R R Bowker Publishing, 1990 This is My Body, this is My Blood Herter Art Gallery, 1992 Includes work by Dennis Adams Karen Atkinson Anthony Aziz Rudolf Baranik Judith Barry Ashley Bickerton Sutapa Biswas Susan Jahoda Yong Soon Min Pepon Osorio Kiki Smith May Stevens Pat Ward Williams Unauthorized History Robbie Conal, Deborah Irmas, 1990

Thinking Long Liam Kelly,1996 Annual Bibliography of Modern Art Museum of Modern Art (New York, N.Y.). Library,1994 The Photography of John Brill John Brill, Leah Ollman,2002 Beginning with staged portraits and self portraits John Brill s imagery becomes increasingly nebulous increasingly concerned with how resonance can remain unaffected by the systematic removal of content Taking scavenged pictures some from real life and some from off the television screen Brill works to distance the image from its origin through multiple printings fragmentation tonal shifts and value reversals In the end the pictures derive more from mind than from matter projections of Brill s own will contrived of his own desire John Brill was born in Newark New Jersey in 1951 With a degree in physiological psychology Brill steeped himself

in the scientific method the practice of discriminating fact from hypothesis before committing himself in 1981 to art making Since then he has shown in galleries in New York Atlanta and Hoboken Who's who in American Art, 1993-12 Algiers Zeynep Celik, Julia Ann Clancy-Smith, Frances Terpak, 2009 Walls of Algiers examines the historical processes that transformed Ottoman Algiers the Bulwark of Islam into Alger la blanche the colonial urban showpiece and after the outbreak of revolution in 1954 counter model of France's global empire In this volume the city of Algiers serves as a case study for the analysis of the proactive and reactive social political technical and artistic forces that generate a city s form Visual sources prints photographs paintings architectural drawings urban designs and film are treated as primary evidence that complements and even challenges textual documents.
