Deontology Responsibility And Equality:

Deontology, Responsibility, and Equality Kasper Lippert-Rasmussen, 2005 Three questions that loom large in moral and political philosophy are these Can deontological moral constraints be justified When if ever are we morally responsible for what we do How is the ideal of equality best configured Deontology Responsibility and Equality deals with selected aspects of these three broad questions It critically discusses certain attempts by Frances Kamm and Thomas Nagel among others to account for the impermissibility of minimizing violations in terms of moral status Also it challenges the view that there is a morally relevant difference between doing and allowing harm and especially between killing and letting die In relation to the second question it concentrates on recent developments within compatibilist accounts of moral responsibility prompted by the work of Harry Frankfurt It challenges his purported refutation of the principle of alternative possibilities as well as certain positive compatibilist identification based accounts of respon *Justice and Equality* Peter Vallentyne, 2002-12 This collection of facsimile articles reprints the most influential essays on the subject of justice and equality published in the last hundred years They represent the theoretical debates and practical aspirations of democratic societies and the institutions that govern them Areas of coverage include the meaning scope and practical parameters defining contemporary notions of justice and social equality the conceptual foundation for requiring minimum justice and equality and who is entitled to justice and equality and who is obliged to provide these conditions and the legitimacy and limitations of universal procedural legal concepts of justice and equality *The Notion of Equality* Mane Hajdin, 2018-05-08 This title was first published in 2001 In the articles collected in this anthology contemporary analytic philosophers examine the ways in which the notion of equality functions in moral and political discourse Among the topics discussed are the relationship between the ideal of equality and formal features of moral discourse the conflict between the ideal of equality of welfare and the ideal of equality of resources and the relationship between the equality of opportunity and the equality of results Ethics: The Basics, 2nd Edition John Mizzoni, 2017-03-27 Updated and revised Ethics The Basics Second Edition introduces students to fundamental ethical concepts principles theories and traditions while providing them with the conceptual tools necessary to think critically about ethical issues Introduces students to core philosophical problems in ethics in a uniquely reader friendly manner Lays out clearly and simply a rich collection of ethical concepts principles theories and traditions that are prevalent in today s society Considers western and non western viewpoints and religious interpretations of ethical principles Offers a framework for students to think about and navigate through an array of philosophical questions about ethics *Encyclopedia of Ethics* Lawrence C.
