Bernd Fischer, Timothy J. Mehigan, 2011 New essays employing a multitude of approaches to the works of Kleist in the process shedding light on our present modernity Modernity according to some views poses the problem of homo politicus the problem of how to act in a moral universe without a master narrative without a final foundation From this angle the oeuvre of Heinrich von Kleist novellas dramas and essays addresses problems emerging from a new universe of Kantian provenance in many ways the same universe we inhabit today This volume of new essays investigates Kleist's position in our ever changing conception of modernity employing aesthetic narrative philosophical biographical political economic anthropological psychological and cultural approaches and wrestling with the difficulties of historicizing Kleist's life and work Central questions are To what extent can the multitude of breaking points and turning points endgames and pre games ruptures and departures that permeate Kleist's work and biography be conceptually bundled together and linked to the emerging paradigm of modernity And to what extent does such an approach to Kleist not only advance understanding of this major German writer and his work but also shed light on the nature of our present modernity Contributors See n Allan Peter Barton Hilda Meldrum Brown David Chisholm Andreas Gailus Bernhard Greiner Jeffrey L High Anette Horn Peter Horn Wolf Kittler

**Crafting Flesh, Crafting the Self** John B. Lyon, 2006 This book analyzes wounded human bodies in early nineteenth century German literature and traces their connection to changing philosophical models of the self. It argues that literary representations and metaphors of violence against the body not only offer powerful physical referents for a concept of self, but that they also define violence as an integral component of the self. **Heinrich Von Kleist Studies** Alexej
