The Case of Literature Arne Höcker, 2020-06-15 In *The Case of Literature* Arne Höcker offers a radical reassessment of the modern European literary canon His reinterpretations of Goethe Schiller Büchner Döblin Musil and Kafka show how literary and scientific narratives have determined each other over the past three centuries and he argues that modern literature not only contributed to the development of the human sciences but also established itself as the privileged medium for a modern style of case based reasoning *The Case of Literature* deftly traces the role of narrative fiction in relation to the scientific knowledge of the individual from eighteenth century psychology and pedagogy to nineteenth century sexology and criminology to twentieth century psychoanalysis Höcker demonstrates how modern authors consciously engaged casuistic forms of writing to arrive at new understandings of literary discourse that correspond to major historical transformations in the function of fiction He argues for the centrality of literature to changes in the conceptions of psychological knowledge production around 1800 legal responsibility and institutionalized forms of decision making throughout the nineteenth century and literature s own realist demands in the early twentieth century

Jane Eyre in German Lands Lynne Tatlock, 2022-01-13 Lynne Tatlock examines the transmission diffusion and literary survival of *Jane Eyre* in the German speaking territories and the significance and effects thereof 1848 1918 Engaging with scholarship on the romance novel she presents an historical case study of the generative power and protean nature of Brontë s new romance narrative in German translation adaptation and imitation as it involved multiple agents from writers and playwrights to readers publishers illustrators reviewers editors adaptors and translators *Jane Eyre in German Lands* traces the ramifications in the paths of transfer that testify to widespread creative investment in romance as new ideas of women s freedom and equality topped the horizon and sought a home especially in the middle classes As Tatlock outlines the multiple German instantiations of Brontë s novel four translations three abridgments three adaptations for

general readers nine adaptations for younger readers plays farces and particularly the fiction of the popular German writer E
 Marlitt and its many adaptations evince a struggle over its meaning and promise Yet precisely this multiplicity repetition
 redundancy and proliferation combined with the romance narrative s intrinsic appeal in the decades between the March
