The Impact of the Reformation and the Future of Christianity Hans-Walter Ruckebauer, Yvanka Raynova, 2019-08-21 In view of the current global crisis in which war conflicts and waves of refugees reinforces the existing mistrust and negative attitudes towards the religions as causes of violence the question arises How do matters stand with Christianity in Europe How could canonical tradition law and reformation resp ecclesiastical dogmas and European values be reconciled today Europe Do the Christian Churches still need a kind of Reformation The jubilee of the 500th anniversary of Martin Luther's theses is a great opportunity to pursue these questions as well as to reevaluate the spiritual and socio political impact of the Reformation The following issue of the Labyrinth Journal offers not only Protestant but also Catholic Orthodox non Christian and even atheistic contributions to these topics It also celebrates the 110th Anniversary of the elaboration of the Roerich Pact discussing its perspectives of a Reformation through Culture , *La Société des nations* ,1925 **The 'Final Solution' in Riga** Andrej Angrick, Peter Klein, 2012 With its over thousand detailed and expansive footnotes drawing on twenty four different archive collections in eight countries and three continents and an enormous secondary literature this is one of the best researched regional studies of the Holocaust ever to appear It is helped by the fact that the authors are also always so cognizant of what was happening elsewhere in Europe at the same time and thus frequently draw out the relationship between seemingly haphazard local decisions and trends across Europe Indeed the way in which the book makes sense of complex institutional behavior is at times breathtaking The precision in the detail and the scope of the contextualization make this one of the more important works to appear on the Holocaust in recent years English Historical Review This very readable and well documented study fills an important gap in the Holocaust literature it offers insight into the microcosm reflecting the entire terrifying and murderous scenario of the SS State Frankfurter Allgemeine Zeitung This excellent study of the Riga ghetto informed by Eastern European sources and available now in English translation provides a precise and ghastly description of what the liquidation meant for the local Jews With laudable thoroughness they describe the organized shooting of Jews the first form of industrial scale mass murder The New York Review of Books Ghetto forced labor camp concentration camp All of the elements of the National Socialists policies of annihilation were to be found in Riga This first analysis of the Riga ghetto and the nearby camps of Salaspils and Jungfernhof addresses all aspects of German occupation policy during the Second World War Drawing upon a broad array of sources that includes previously inaccessible Soviet archives postwar criminal investigations and trial records of alleged perpetrators and the records of the Society of Survivors of the Riga Ghetto the authors have produced an in depth study of the Riga ghetto that never loses sight of the Latvian capital's place within the overall design of Nazi policy and the all of Europe dimension of the Holocaust Andrej Angrick a native of Berlin is a historian consultant and researcher affiliated with the Hamburg Foundation for the Promotion of Science and Culture He has published numerous articles about the Holocaust in the Soviet Union and co edited Der

Stalin's Plans for Capturing Germany Bogdan Musial, 2023-10-30 Drawing on a host of internal Soviet Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war While the myth of Soviet benevolence has now largely been discredited the idea that Stalin's Soviet Union was a peaceful power that sought to prevent the war through all kinds of means including an ill fated non aggression treaty with Hitler remains popular to this day Indeed this narrative is not only promoted by Putin's propaganda but also by a host of Western intellectuals and even historians who take public declarations at face value Drawing on a host of internal Soviet Politburo discussions memoranda and speeches this book shows that the Soviet Union was a heavily militarized state that incessantly planned to unleash a great ideologically motivated war against the rest of the world In fact its entire political life revolved around the question of war especially following the onset of the Great Depression in 1929 which convinced Soviet leaders of the imminent collapse of the capitalist system abroad Thus both the collectivization as well as the terror that followed in its wake were done with the coming war in mind even though there was no tangible danger of war Slowed down by countless devastating setbacks Stalin was nevertheless able to amass a gigantic army by the late 1930s When Hitler approached Stalin in 1939 asking for Soviet neutrality in his planned invasion of Poland Stalin sensed a golden opportunity by supporting Hitler he could turn the European powers against each another allowing him to intervene once they were sufficiently weakened However Stalin miscalculated Hitler beat both Poland and France in less than a year and then turned against Moscow in 1941 long before Stalin was ready for his own attack
