Derailed Evolution:

The General Genetic Catastrophe Nils K. Oeijord, 2011-02-24 Nils K Oeijord's research since 1999 shows that we have a worldwide general genetic catastrophe GGC due to general local and global manmade mutagenic pollution. The GGC began in the 1700s, increased in the 1800s, and exploded in the 1900s. The HIGH and INCREASING prevalence and the HIGH and INCREASING incidence of gene damage and genetic diseases all over the world logically prove the existence of the GGC. Nils K Oeijord is a science writer, a former researcher, plant production, a former assistant professor, mathematics, and a former science and mathematics lecturer, high school. He is the discoverer of the general genetic catastrophe and has earned a place in *Whos Who in the World* 28th Edition, in *Great Minds of the 21st Century* 5th Edition, and in 2000 Outstanding Intellectuals of the 21st Century 2011 Edition. *The God of Monkey Science* Janet Kellogg Ray, 2023-10-10 How to hold true to your faith and embrace modern science. Ever since the Scopes Monkey Trial in the early twentieth century, American evangelicals have considered scientists public enemy #1. But this antipathy to modern science turned deadly during the COVID 19 crisis when white evangelicals snubbed precautions and vaccines. Herself an evangelical Christian and a science educator, Janet Kellogg Ray explains how we got here and how to fix it. As the follow up to *Baby Dinosaurs on the Ark*, this lively volume covers evolution as well as the coronavirus pandemic, vaccines, climate change, and the frontiers of genetic research. Ray explains the facts accessibly and with verve. Along the way, she vividly narrates the scientific achievements and political and religious drama that got us to where we are today. Ultimately, Ray calls for evangelicals to speak to science rather than deny it. We need Christian ethics now more than ever to determine how best to act in light of current scientific data and for love of neighbor. If you're afraid of science hurting your faith, this book will show you how to be true to both. International Society for Science and Religion ISSR Book Prize on Science and Religion Long List 2024 Sojourners Best Books List 2023 **The Death of Religion and the Rebirth of Spirit** Joseph Chilton Pearce, 2007-03-02 Social visionary Joseph Chilton Pearce's indictment of cultural imprinting as the cause of humankind's cruel and violent behavior. Refutes the Neo Darwinist assumption that violence is inherent in humanity. Identifies religion as the sustaining force behind our negative cultural imprinting. Shows how infant/adult interactions unconsciously block the creative spirit. We are all too aware of the endless variety of cruel and violent behavior reported to us in the media, reminded daily that in every corner of the world, someone is suffering or dying at the hands of another. We have to ask: Is this violence and cruelty endemic to our nature? Are we at our foundation really so murderous? In *The Death of Religion and the Rebirth of Spirit*, Joseph Chilton Pearce, life-long advocate of human potential, sounds an emphatic and convincing no. Pearce explains that beneath our awareness, culture imprints a negative force field that blocks the natural rise of the spirit toward its innate nature of love and altruism. Further, he identifies religion as the primary cultural force behind this negative imprinting. Drawing from recent neuroscience, neurocardiology, cultural anthropology, and brain development research, Pearce explains that the key to reversing this trend can be found in

the interaction between infants and adults The adult mind set effectively compromises the infant's neural and hormonal interactions between the heart and the higher evolutionary structures of the developing brain thus keeping us centered primarily in our most primitive and defensive neural foundations generation after generation Pearce shows us that if we allow the intelligence of the heart to take hold and flourish we can reverse this unconscious loss of our true nature *The Question of Women in Chinese Feminism* Tani Barlow, 2004-03-25 Barlow documents the history of woman as a category in twentieth century Chinese history tracing the question of gender through various phases in the literary career of Ding Ling a major modern Chinese writer *Ecological Paradigms Lost* Beatrix Beisner, 2005-08-23 This edited volume in the Theoretical Ecology series addresses the historical development and evolution of theoretical ideas in the field of ecology Not only does *Ecological Paradigms Lost* recount the history of the discipline by practitioners of the science of ecology it includes commentary on these historical reflections by philosophers of science Even though the theories discussed are in many cases at the forefront of research the language and approach make this material accessible to non theoreticians The book is structured in 5 major sections including population ecology epidemiology community ecology evolutionary biology and ecosystem ecology In each section a chapter by an eminent experienced ecologist is complemented by analysis from a newer cutting edge researcher Reflection on the past and future of ecology A historical overview of major ideas in the field of ecology Pairing of historical views by ecologists along with a philosophical commentary directed at the practicing scientists views by a philosopher of science Historical analysis by practicing ecologists including anecdotal experiences that are rarely recorded Based on a very popular symposium at the 2002 Ecological Society of America annual meeting in Tucson AZ
