some humans continue to insist that they are entitled to live as humans While it is perhaps a question of philosophy what

constitutes a human right it is more clear what constitutes an abuse of human rights The world has never been short on abusers and is surely not now Only the names and faces have changed over time The powerful tend to be the abusers and the weak the abused Being aware of the abuses can at least focus light on them and perhaps serve as a proactive response This bibliography presents hundreds of citations of human right violations under the categories Basic Human Rights North America Latin America Europe Asia Middle East and Africa Access is provided via Title Author and Subject Indexes
