Derrida And Feminism:

Derrida and Feminism Ellen K. Feder, Mary C. Rawlinson, Emily Zakin, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company *Feminist Interpretations of Jacques Derrida* Nancy Holland, 2010-11-01 Aandacht voor het werk van Derrida vanuit feministisch perspectief De volgende bijdragen zijn opgenomen Choreographies interview door Jacques Derrida en Christie V McDonald Displacement and the discourse of woman door Gayatri Chakravorty Spivak Ontology and equivocation Derrida's politics of sexual difference door Elizabeth Grosz Deconstruction and feminism a repetition door Peggy Kamuf Toward an ethic of desire Derrida fiction and the law of the feminine door Peg Birmingham Civil disobedience and deconstruction door Drucilla Cornell The force of law metaphysical or political door Nancy Fraser Sentiment recuperated the performative in women's AIDS related testimonies door Kate Meheuron Crossing the boundaries between deconstruction feminism and religion door Ellen T Armour Kolossos the measure of a man's size door Dorothea Olkowski **Yielding Gender** Penelope Deutscher, 2002-01-22 Traditional accounts of the feminist history of philosophy have viewed reason as associated with masculinity and subsequent debates have been framed by this assumption Yet recent debates in deconstruction have shown that gender has never been a stable matter In the history of philosophy female and woman are full of ambiguity What does deconstruction have to offer feminist criticism of the history of philosophy Yielding Gender explores this question by examining three crucial areas the issue of gender as troubled deconstruction and feminist criticism of the history of philosophy The first part of the book discusses the work of Judith Butler Jacques Derrida and contemporary French feminist philosophy including key figures such as Luce Irigaray Particular attention is given to the possibilities offered by deconstruction for understanding the history of philosophy The second part considers and then challenges feminist interpretations of some key figures in the history of philosophy Penelope Deutscher sketches how Rousseau St Augustine and Simone de Beauvoir have described gender and argues that their readings of gender are in fact empowered by gender's own contradiction and instability rather than limited by it Changing Difference Catherine Malabou, 2011-09-26 Woman has never been able to define herself any other way than in terms of the violence done to her In this work Malabou begins with philosophy asking what is the life of a woman philosopher Reading Marginally David Rutledge, 1996 This study in examining the work of Jacques Derrida and its relevance to feminist biblical interpretation provides valuable new insights into the theological implications of gender issues reading writing and postmodern thought

Deconstruction, Feminist Theology, and the Problem of Difference Ellen T. Armour, 1999-06-15 The term feminism conjures up the promise of resistance to the various forms of oppression women face But feminism's ability to fulfill this promise has been undermined by its failure to deal adequately with the difference that race makes for gender In this book Ellen T Armour forges an alliance between deconstruction and feminist theology and theory by demonstrating deconstruction's usefulness in addressing feminism's trouble with race Armour shows how the writings of Jacques Derrida and Luce Irigaray

can be used to uncover feminism's white presumptions so that race and gender can be thought of differently. In clear concise terms she explores the possibilities and limitations for feminist theology of Derrida's conception of woman and Irigaray's multiple woman as well as Derrida's thinking on race and Irigaray's work on religion. Armour then points a way beyond the race/gender divide with the help of African American theorists such as bell hooks, Hortense Spillers and Patricia Hill Collins.

The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives George Alexander Kennedy, Christa Knellwolf, 1989. This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century. Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism. The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual, national and socio-cultural perspective. In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate.

Feminism and Power Mary Caputi, 2013-05-16. *Feminism and Power: The Need for Critical Theory* is a six chapter manuscript which offers an important critique of power feminism. The latter having produced such spinoffs as 'girl power', 'choice babe', 'lipstick and stiletto feminisms' encourages women to be strong, self-sufficient, feisty and independent. While I have no argument with much of that tough minded ideal I ask whether this brave new girl doesn't too readily acquiesce in a neo-liberal ideology whose underlying tenets derive from American rugged individualism. At its worst this strain within Third Wave feminism contains no critique of capitalism, no distance on neoliberal theory, no effort to address the injustices contained in globalization's asymmetries and the industrialized North's exploitation of developing countries. *Feminism and Power: The Need for Critical Theory* therefore argues that the critical theories of Theodor Adorno and Jacques Derrida have much to offer feminism and a feminist understanding of female empowerment. Its pages rely on Adorno's assertion that it is only by allowing the sufferer to speak that we can unveil social truth rather than be duped by the bravado of victory culture. Similarly it demonstrates how Derrida's insistence on the trace as well as the asymmetries of friendship and hospitality lead feminism away from the perils of contented triumphalism. The book promotes listening as a paradigmatic feminist gesture rather than always speaking up and out.

Deconstruction, Feminism, Film Sarah Dillon, 2019-01-22. This book probes the feminist faultlines in Derrida's thought and generates original feminist insight into key concerns of contemporary film studies including spectatorship, realism vs. artifice, narrative, adaptation, auto-biography and the still.

Is Feminist Philosophy Philosophy? Emanuela Bianchi, 1999. Drawing attention to the vexed relationship between feminist theory and philosophy, *Is Feminist Philosophy Philosophy?* demonstrates the spectrum of significant work

being done at this contested boundary The volume offers clear statements by seventeen distinguished scholars as well as a full range of philosophical approaches it also presents feminist philosophers in conversation both as feminists and as philosophers making the book accessible to a wide audience Derrida, Kristeva, and the Dividing Line Juliana De Nooy, 2013-08-21 Both Jacques Derrida and Julia Kristeva have made an enormous impact throughout the humanities with their work on signification identity and difference and yet the nature of the relation between their theories seems oddly indeterminate they have sometimes been regarded as more or less indistinguishable and sometimes as incompatible This book aims at establishing precisely how Kristeva's and Derrida's writings may be articulated tracing intersections and divergences parallels and discontinuities between them But how do you compare two theories of the production of difference What conception of difference do you use to go about it Any search for a dividing line between Derrida and Kristeva already engages with their preoccupations Should the juxtaposition of these practices be conceived as a face to face confrontation or rather a gap a hiatus Could it be a dialectic or a difference Should it be thought of in terms of Kristeva's work or Derrida's Accessible and lively this book studies the theories on their own terms in terms of one another and with regard to the literary text a privileged object of their attention It demonstrates that the articulation of the theories shifts under different discursive conditions such that a Derridean reading of the relation is unlikely to coincide with a Kristevan interpretation It shows why there is no single answer to the question of how the two fit together And it investigates what is at stake in the strategic uses to which their work is put whether separately or together **The Philosophy of the Limit** Drucilla Cornell, 2016-01-08 In *The Philosophy of the Limit* Drucilla Cornell examines the relationship of deconstruction to questions of ethics justice and legal interpretation She argues that renaming deconstruction the philosophy of the limit will allow us to be more precise about what deconstruction actually is philosophically and hence to articulate more clearly its significance for law Cornell's focus on the importance of the limit and the centrality of the gender hierarchy allows her to offer a view of jurisprudence different from both the critical social theory and analytic jurisprudence *She Changes by Intrigue* Lydia Rainford, 2005 Covers gender studies continental philosophy critical theory *From Revolution to Deconstruction* Pam Papademos, 2010 Feminist theory is no longer guiding the development of policy interventions in Australia because it is seen to be irrelevant to modern women Many leading feminists are locked into a politics that is based on liberal or socialist principles and do not want or know how to move away from these even when this type of politics is failing to change many women's circumstances This book confronts feminism and challenges its relationship to philosophy which the author argues impacts on the reception of poststructural theories like deconstruction It provides a narrative of why the potential for deconstruction has been denied as well as where it has been taken on It gives an account of deconstruction that tackles some of its more difficult aspects namely its political applications The book also outlines the history of Women's Studies as a discipline that is its institutionalization and identifies its theoretical concerns as a social movement with a political agenda The book maps

deconstruction's impact on feminism in Australia and more specifically its introduction to Women's Studies programs

Foucault and Derrida Roy Boyne, 2013-11-05 The writings of Michel Foucault and Jacques Derrida pose a serious challenge to the old established but now seriously compromised forms of thought. In this compelling book Roy Boyne explains the very significant advances for which they have been responsible, their general importance for the human sciences and the forms of hope that they offer for an age often characterized by scepticism, cynicism and reaction. The focus of the book is the dispute between Foucault and Derrida on the nature of reason, madness and otherness. The range of issues covered includes the birth of the prison, problems of textual interpretation, the nature of the self and contemporary movements such as socialism, feminism and anti-racism. Roy Boyne argues that whilst the two thinkers chose very different paths, they were in fact rather surprisingly to converge upon the common ground of power and ethics. Despite the evident honesty, importance and adventurousness of the work of Foucault and Derrida, many also find it difficult and opaque. Roy Boyne has performed a major service for students of their writings in this compelling and accessible book. [The Australian Feminist Law Journal](#)

, 2003 **Feminist Thought** Rosemarie Tong, 2013-10-08 In this survey of feminist theory, Rosemarie Tong provides coverage of the psychoanalytic, existential and postmodern schools of feminism. The author guides the reader through the complexities of even the most notoriously difficult thinkers. Students will meet and become familiar with many of the essential figures in the feminist tradition, from Wollstonecraft and Engel through de Beauvoir, Dinnerstein and Daly, and up to Mitchell and Cixous. The text treats all views with respect and encourages students to think critically and sympathetically about a wide range of views that have a direct relevance to their own lives. **Feminist Theory and the Philosophies of**

Man Andrea Nye, 1989 First Published in 1990 Routledge is an imprint of Taylor & Francis, an information company. **On Spiders, Cyborgs, and Being Scared** Joanna Zylińska, 2001 This book deals with the institutional framework in post-socialist, after-empire spaces. It consists of nine case studies and two contributions of a more theoretical nature. Each of these analytical narratives sheds some light on the micro-politics of organised violence. After 1990, Serbs and Croats were competing over access to the resources needed for institution building and state building. Fear, in turn, triggered ethnic mobilisation. An unprofessional riot of Serbs in the Krajina region developed into a professional war between Serbs and Croats in Croatia, in which several thousand died and several hundred thousand people were forcefully expelled from their homes. The Herceg-Bosnian style of resistance can be surprisingly effective. It is known that most of the heroin transported along the Balkans route passes through the hands of Albanian mafia groups; that this traffic has taken off since summer 1999. The concept of *Staatnation* is based on the doctrine according to which each nation must have its own territorial State and each State must consist of one nation only. The slow decline and eventual collapse of the Soviet and the Yugoslav empires was partly triggered, partly accompanied by the quest for national sovereignty. Dagestan is notable for its ethnic diversity and even by post-Soviet standards its dramatic economic deprivation. The integrative potential of cooperative movements at the

republican the regional and the inter state level for the Caucasus is analyzed The book also offers insights into the economics of ending violence Finally it addresses the question of reconciliation after ethnic cleansing *The Politics and Poetics of Wo/man/ufacture* Pei-jing Carrie Li, 2001
