Derrida And Religion Other Testaments:

Derrida and Religion Yvonne Sherwood, Kevin Hart, 2004-09-30 *Derrida and Religion Other Testaments* represents the most comprehensive attempt to date to explore and test Derrida's contributions and influence on the study of theology, biblical studies and the philosophy of religion. With over twenty original essays from highly respected scholars such as John Caputo, Daniel Boyarin, Edith Wyschogrod, Tim Beal and Gil Anidjar, *Derrida and Religion* will quickly become the locus classicus for those interested in the increasingly vibrant work on religion and deconstruction and postmodernism.

Derrida's Bible Y. Sherwood, E. Castelli, 2016-09-27 In the last few years Derrida has gained a great deal of attention from scholars of biblical studies and theology. The contributors to *Derrida's Bible* explore the relationships between Derrida's theory and religious studies. Unlike other books on Derrida, this collection is primarily focused on biblical studies where others are concerned with Derrida and religion in general.

Derrida on Religion Dawne McCance, 2009 Introduces the undergraduate student to Derrida's life and work. This volume offers an overview of Derrida's writing from the 1960s to his death in 2004, considering prominent terms and some of the central issues and philosophical and religious figures his writing engages.

Religion, Theory, Critique Richard King, 2017-07-18 *Religion Theory Critique* is an essential tool for learning about theory and method in the study of religion. Leading experts engage with contemporary and classical theories as well as non-Western cultural contexts. Unlike other collections, this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion, secular and culture are imagined within different disciplinary horizons. This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories. Contributors write on the influence of the natural sciences in the study of religion, the role of European Christianity in modeling theories of religion, religious experience and the interface with cognitive science, the structure and function of religious language, the social scientific study of religion, ritual in religion, the phenomenology of religion, critical theory and religion, embodiment and religion, the impact of colonialism and modernity, theorizing religion in terms of race and ethnicity, links among religion, nationalism and globalization, the interplay of gender, sex and religion, and religion and the environment. Each chapter introduces the topic, identifies key theorists and issues, and respects the pluralistic nature of the scholarship in the field. Altogether, this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis.

Another Finitude Agata Bielik-Robson, 2019-05-30 Beginning from the notion of finite life, *Another Finitude* takes this staple subject from post-Heideggerian philosophy and opposes it to the onto-theological concept of infinity represented by an eternal absolute. Although critical of Heidegger and his definition of finitude as being towards death, this book does not revert to the ontological idea of infinity secured in the sacred image of immortality. But it also does not want to give up on infinity; altogether, the infinite is transposed so it can become a necessary moment of the finite life. A theological framework

for the new elaboration of the concept of finitude is crucial but instead of following the Lutheran formula Agata Bielik Robson turns to the sources of Judaism Taking inspiration from the Jewish idea of *torat hayim* the principle of finite life which found the best expression in the biblical sentence love strong as death love emerges as the alternative marker of finitude allowing to us redefine it in an affirmative way By tracing the avatars of love in the group of 20th century thinkers or messianic vitalists Benjamin Rosenzweig Arendt Derrida and deeply revised Freud the book attempts to demonstrate the possibility of such affirmation Love becomes the new infinite in the finite love in all its forms from the original libidinal endowment of the human psyche to the last metamorphoses of agape the Greco Christian divine love **Being Spiritual but Not Religious**

William B. Parsons, 2018-05-30 In its most general sense the term Spiritual but Not Religious denotes those who on the one hand are disillusioned with traditional institutional religion and on the other hand feel that those same traditions contain deep wisdom about the human condition This edited collection speaks to what national surveys agree is a growing social phenomenon referred to as the Spiritual but Not Religious Movement SBNRM Each essay of the volume engages the past present and future s of the SBNRM Their collective contribution is analytic descriptive and prescriptive taking stock of not only the various analyses of the SBNRM to date but also the establishment of a new ground upon which the continued academic discussion can take place This volume is a watershed in the growing academic and public interest in the SBNRM As such it will vital reading for any academic involved in Religious Studies Spirituality and Sociology *Twentieth-Century*

Philosophy of Religion Graham Oppy, N. N. Trakakis, 2014-09-11 The twentieth century saw religion challenged by the rise of science and secularism a confrontation which resulted in an astonishingly diverse range of philosophical views about religion and religious belief Many of the major philosophers of the twentieth century James Bergson Russell Wittgenstein Ayer Heidegger and Derrida significantly engaged with religious thought Idiosyncratic thinkers such as Whitehead Levinas and Weil further contributed to the extraordinary diversity of philosophical investigation of religion across the century In their turn leading theologians and religious philosophers notably Buber Tillich and Barth directly engaged with the philosophy of religion Later philosophy of religion became a distinct field of study led by the work of Hick Alston Plantinga and Swinburne *Twentieth Century Philosophy of Religion* provides an accessible overview of the major strands in the rich tapestry of twentieth century thought about religion and will be an indispensable resource for any interested in contemporary philosophy of religion *Continental Philosophy of Religion* Elizabeth Burns, 2019-01-10 This Element presents key features from the writings on religion of twelve philosophers working in or influenced by the continental tradition Hegel Kierkegaard Nietzsche Heidegger Rosenzweig Tillich Derrida Caputo Levinas Hadot Jantzen and Anderson It argues for a hybrid methodology which enables transformational religious responses to the problems associated with human existence the existential problems of meaning suffering and death to be supported both by reasoned argument and by revelation narrative philosophy and experiential verification **In Search of Radical Theology** John D. Caputo, 2020-10-06 These sparkling essays from a

seasoned scholar are a great breath of fresh air in our claustrophobic and catastrophic time Cornel West Capturing a career's worth of thought and erudition this rich volume treats readers to creative thought careful argumentation and sophisticated analysis transmitted through the lucid accessible prose that has earned the author a wide readership of academics and non academics alike In tackling radical theology John D Caputo has in mind the deeper stream that courses its way through various historical and confessional theologies upon which these theologies draw even while it disturbs them from within They are well served by this disturbance because it keeps them on their toes When we read about professional theologians losing their jobs in confessional institutions the chances are that by earnestly digging into what is going on in their tradition they have hit upon radical theological rock Unlike modernist dismissals of religion radical theology does not debunk but re-invents the theological tradition Radical theology Caputo says is a double deconstruction of supernatural theology on the one hand and of transcendental reason on the other and therefore of the settled distinctions between the religious and the secular Caputo also addresses the challenge for radical theology to earn a spot in the curriculum given that the radical makes it suspect among the confessional seminaries while the theology renders it suspect among university seminars Journeying from the academy to contemporary American culture In Search of Radical Theology includes a captivating presentation of radical political theology for the time of Trump This utterly unique volume not only brings readers on an enlightening tour of Caputo's thought but also invites us to accompany the author as he travels into intriguing new territories

Violence and Meaning Lode Lauwaert, Laura Katherine Smith, Christian Sternad, 2019-11-23 This edited collection explores the problem of violence from the vantage point of meaning Taking up the ambiguity of the word meaning the chapters analyse the manner in which violence affects and in some cases constitutes the meaningful structure of our lifeworld on individual social religious and conceptual levels The relationship between violence and meaning is multifaceted and is thus investigated from a variety of different perspectives within the continental tradition of philosophy including phenomenology post structuralism critical theory and psychoanalysis Divided into four parts the volume explores diverging meanings of the concept of violence as well as transcendent or religious violence a form of violence that takes place between humanity and the divine world Going on to investigate instances of immanent and secular violence which occur at the level of the group community or society the book concludes with an exploration of violence and meaning on the individual level violence at the level of the self or between particular persons With its focus on the manifold of relations between violence and meaning as well as its four part focus on conceptual transcendent immanent and individual violence the book is both multi directional and multi layered *Jacques Derrida and the Question of Interpretation* Tomi Kaarto, 2008 Includes bibliographical references p 619 646 and index

Encyclopedia of Philosophers on Religion Bernard J. Verkamp, 2008-08-27 This book addresses and examines the religious affiliations and beliefs of prominent contemporary philosophers The author profiles 150 such philosophers in separate alphabetically ordered entries providing biographical information religious upbringing practice and beliefs

Subjectivity of Différance Heecheon Jeon, 2011 In *Subjectivity of Différance* Heecheon Jeon carefully explores the question of living well together in the midst of myriad differences and otherness in our living world. Living well together is not a concept void of naïve togetherness of various subjectivities but rather the disclosure of the repressive subjectivity to welcome strangers to ourselves by sacrificing the very subjectivity. To this end Jeon not only delves into the deconstruction of subjectivity but also searches for poetic possibilities of subjectivity without the subject for living well together in Jacques Derrida, Martin Heidegger, Emmanuel Levinas and Alain Badiou: ethical responsibility, political enunciation, cultural supplementarity and theological imagination. Beyond the deconstructive critique of metaphysical subjectivity, the possibility of subjectivity without the subject must be investigated in terms of multifaceted aspects of our living together: *subjectum*, *Deus* and *communitas*. Jeon insists that deconstruction radically commands us to say salut to the Other at the brink of a democracy to come.

AAR/SBL Annual Meeting Program American Academy of Religion. Meeting, 2002 Derrida Madeleine Fagan, 2007 Explores the implications of Derrida's death for the future of critical thought; itself includes chapters which engage with contemporary themes within Politics and International Studies, Philosophy, Literary Studies and Postcolonial Studies. **A Genealogy of Marion's Philosophy of Religion** Tamsin Jones, 2011-02-15 Tamsin Jones believes that locating Jean-Luc Marion solely within theological or phenomenological discourse undermines the coherence of his intellectual and philosophical enterprise. Through a comparative examination of Marion's interpretation and use of Dionysius the Areopagite and Gregory of Nyssa, Jones evaluates the interplay of the manifestation and hiddenness of phenomena. By placing Marion against the backdrop of these Greek fathers, Jones sharpens the tension between Marion's rigorous method and its intended purpose: a safeguard against idolatry. At once situated at the crossroads of the debate over the turn to religion in French phenomenology and an inquiry into the retrieval of early Christian writings within this discourse, *A Genealogy of Marion's Philosophy of Religion* opens up a new view of the phenomenology of religious experience.

Tarrying with the Transcendent Michael J. Roeschlein, 2006 Radical Orthodoxy and the Reformed Tradition James K. A. Smith, James H. Olthuis, 2005 Leading scholars highlight the growing dialogue between proponents of Radical Orthodoxy and thinkers in the Reformed tradition. Intersections in Christianity and Critical Theory Cassandra Falke, 2010-10-27 Dealing with the historical and thematic intersections of Christianity and critical theory, this collection brings together a diversity of specialist scholars in the area. Building on recent discourses in theology as well as their knowledge of hermeneutic and critical traditions, they examine major themes in contemporary critical theory. *Religion in African-American Culture* Winfried Herget, Alfred Hornung, 2006 This volume focuses on the multifaceted significance of religion in African American literature and culture of the nineteenth and twentieth centuries. The series of essays addresses religion as part of the self-empowerment of African American women as itinerant preachers, the curious intermingling of Catholicism and Voodoo in Louisiana Creole culture, the representation of Obeah women and the tradition of the folk sermon.

in James Weldon Johnson The Harlem Renaissance provides the backdrop for the discussion of Afro Modernism and religion in Claude McKay s and Jean Toomer s works for the analysis of African American folk plays by Richard Bruce and Georgia Douglas Johnson and a comparison of Nella Larsen s and Ralph Ellison s critical views of religion as well as an illustration of the connections between spiritual search and the blues in Ellison s works Discussions of the contemporary scene include the poetry of Robert Hayden twentieth century African American intellectuals views on religion and history and the acceptance of the Nation of Islam as an American religion
