Fundamentals of Market Access for Pharmaceuticals Eric Bouteiller, Annie Chicoye, 2024-11-05 Because at the heart of the apparent conflict between public health concerns and capitalistic interests market access for pharmaceuticals is largely driven by political considerations the difference with usual consumer goods being that pharmaceuticals are saving lives or years of life in good health If pharmaceutical companies are to innovate they must be incentivised with prices that reflect the value of their products and the resources and risks involved in their production To ensure appropriate access to new drugs and treatments for patients in need around the world affordability is key How do we tackle this dilemma This question is critical for all stakeholders The development of universal health coverage puts pressure on governments to directly or indirectly control reimbursement and prices of pharmaceuticals whereas the flow of innovations addressing infectious chronic and life threatening diseases is growing constantly This book summarizes various global approaches to solving this dilemma and explores new trends Thanks to the toolbox proposed by the authors not only students but also executives from companies payers regulators and patients organizations can benefit from the supporting concepts and methods that favour greater access to pharmaceuticals

Financial literacy Monique Cohen, 2009-12-01 The global financial crisis has intensified the problems of over indebtedness especially for the poor In this context the microfinance industry is giving more attention to building their customers financial capabilities designing products that respond to their needs and preferences and ensuring their protection as consumers

Innovations in rural and agriculture finance Kloeppinger-Todd, Renate, Sharma, Manohar, 2010-07-21 Everywhere in the world small agricultural producers are entrepreneurs traders investors and consumers all rolled into one In all these roles small agricultural households constantly seek to use available financial instruments to improve their productivity and secure the best possible consumption and investment choices for their families But the package of financial services available to small farmers in developing countries is severely limited especially for those living in remote areas with no access to basic market infrastructure When poor people have limited saving or borrowing options their investment plans are stifled and it becomes harder for them to break out of poverty If households have no access to insurance and are unable to accumulate small savings that enable them to pay for household and business expenses especially during lean seasons they are forced to limit their exposure to risk even if high returns are expected once

again making the pathway out of poverty more arduous than necessary Inadequate access to financial services is thus part of what is often called the poverty trap      *Computerworld* ,1999-12-06 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network      **Catalog** Food and Nutrition Information Center (U.S.),1973 2365 references to books journal articles brochures and audiovisual aids that are of interest to personnel of the school food service and nutrition education profession Broad topical arrangement Entries include accession number bibliographical information call number of FNIC descriptors and abstract Indexes by subjects authors personal and corporate and titles      **The Sanford Guide to Antimicrobial Therapy** ,2002      The Sanford Guide to Antimicrobial Therapy David N.
