**Greek Oratory** Stephen Usher, 1999-07-01 Speakers address audiences in the earliest Greek literature but oratory became a distinct genre in the late fifth century and reached its maturity in the fourth This book traces the development of its techniques by examining the contribution made by each orator Dr Usher makes the speeches come alive for the reader through an in depth analysis of the problems of composition and the likely responses of contemporary audiences His study differs from previous books in its recognition of the richness of the early tradition which made innovation difficult however the orators are revealed as men of remarkable talent versatility and resource Antiphon's pioneering role Lysias achievement of balance between the parts of the speech the establishment of oratory as a medium of political thought by Demosthenes and Isocrates and the individual characteristics of other orators Andocides Isaeus Lycurgus Hyperides Dinarchus and Apollodorus together make a fascinating study in evolution while the illustrative texts of the orators which are translated into English include some of the liveliest and most moving passages in Greek literature

[The Oxford Handbook of Hellenic Studies](#) George Boys-Stones, Barbara Graziosi, Phiroze Vasunia, 2009-08-20 The Oxford Handbook of Hellenic Studies is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been and might be studied It is intended to inform its readers but also importantly to inspire them and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today

*Demosthenes, Speeches 50-59* Demosthenes, Victor Bers, 2003-07-01 This is the sixth volume in the Oratory of Classical Greece This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new

translations prepared by classical scholars who are at the forefront of the discipline These translations are especially designed for the needs and interests of today's undergraduates Greekless scholars in other disciplines and the general public Classical oratory is an invaluable resource for the study of ancient Greek life and culture The speeches offer evidence on Greek moral views social and economic conditions political and social ideology law and legal procedure and other aspects of Athenian culture that have been largely ignored women and family life slavery and religion to name just a few Demosthenes is regarded as the greatest orator of classical antiquity indeed his very eminence may be responsible for the inclusion under his name of a number of speeches he almost certainly did not write This volume contains four speeches that are most probably the work of Apollodorus who is often known as the Eleventh Attic Orator Regardless of their authorship however this set of ten law court speeches gives a vivid sense of public and private life in fourth century BC Athens They tell of the friendships and quarrels of rural neighbors of young men joined in raucous intentionally shocking behavior of families enduring great poverty and of the intricate involvement of prostitutes in the lives of citizens They also deal with the outfitting of warships the grain trade challenges to citizenship and restrictions on the civic role of men in debt to the state
