Socialism with Chinese Characteristics Roland Boer,2021-04-27 This book covers the whole system of Socialism with Chinese Characteristics dealing with Deng Xiaoping's theory the socialist market economy a moderately well off Xiaokang society China's practice and theory of socialist democracy human rights and Xi Jinping's Marxism In short the resolute focus is the Reform and Opening Up Socialism with Chinese Characteristics is one of the most important global realities today However the concept and its practice remain largely misunderstood outside China This book sets to redress such a lack of knowledge

by making available to non Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics It presents this material in a way that is both accessible and thorough *Encyclopedia of Chinese History* Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The *Encyclopedia of Chinese History* covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the *Encyclopedia* includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the *Encyclopedia* will be an invaluable resource for students of Chinese history politics and culture *Patriots and Tyrants* Ross Marlay, Clark D. Neher, 1999 This innovative text explores the extraordinary personal and political lives of ten leaders who profoundly changed twentieth century Asian history China India Vietnam Cambodia and Indonesia are interpreted through the lives of Mao Zedong Deng Xiaoping Mohandas Gandhi Indira Gandhi Ho Chi Minh Ngo Dinh Diem Norodom Sihanouk Pol Pot Sukarno and Suharto Some recast their countries by force of arms others by the power of their ideology Some were born into poverty others into privilege Some were democrats some autocrats some communists But however great their differences each can claim to be an authentic nationalist Using a biographical approach this book will stimulate students to think about the relationship between political leadership and nationalism **Dynamics Vs. Tradition in Chinese Foreign Policy Motivation** Yin Qian, 1999 This book presents original evidence of a previously undisclosed dark side to China's Hong Kong policy after 1982 It documents a covert program of immigration from the mainland to Hong Kong which was designed to put in place a classic fifth column of Communist loyalists to be used if all other institution based arrangements for the power transfer of the British colony to Chinese rule failed This finding is revealing and important in its own right as a contribution to study of the Hong Kong transition But the book focuses more on the broader significance of the motivation of such a fifth column policy for both the study of Chinese foreign policy and international relations theory Studies of international affairs regularly impute motives to states or their leaders Yet when it comes to analysis of the imputed motives most scholars see that as nearly impossible given the difficulty of penetrating the

minds of the individual leaders concerned However a small number of scholars have taken up the challenge They believe that foreign policy motivation can be studied despite its apparent complexity and elusiveness They see the study of motivation of a given foreign policy as the only way of grasping its essence and therefore of ascertaining clues about its future development This book argues that motivation study advances our understanding of Chinese foreign policy Drawing on an investigation of existing theoretical studies of motivation it identifies and synthesises three approaches to the study of motivation that seem particularly relevant to the Chinese case perception personality and structural situational constraining factors It also analyses the historical political culture ideological and structural sources of Chinese policymaking to illustrate how these three elements can elucidate Chinese foreign policy motivation Its conclusion is then tested against the case of China's fifth column policy in Hong Kong The findings from the Hong Kong case study reflect two parallel but contradictory lines of motivation in the reform era of Deng Xiaoping a dynamic adjusting and learning process on the one hand and a strenuous effort to retain its traditional practice on the other The book concludes that despite increasing pressures for adaptation from constant and tremendous changes in global and national settings Chinese foreign policy motivation could not in the final analysis overcome the constraints imposed by its underlying doctrines and practices which had been so firmly embedded in the minds of the Communist leaders that it became a traditional mode of responding to the unknown and uncertain culture of Chinese foreign policy

New China's Long March from Servility to Freedom Wei-Bin Zhang, 2007 This book is part of a broad study on Confucianism and its implications for the modernisation of East Asia The Opium War symbolises the beginning of foreign humiliations and the Cultural Revolution represents the apex of self oppression self intimidation and self humiliations China vainly strove under the guns of many countries until the end of World War II and since then has suffered from many civil wars Immediately after New China was established in 1949 the CCP closed the door to the outside democratic world thus creating self humiliations Since economic reform was launched in 1978 New China has been developed from the verge of nationwide self murder to the track for prosperity and freedom The long march from self destructiveness to social and

economic progresses raises many challenging questions about human survival and processes Philosophical historical political and economic perspectives are discussed An open and enriching New China could dramatically affect the world in the not so distant future This book describes the history of New China as a dynamic process from the pole of central planning anti Americanism and anti Confucianism towards market economy Americanisation and modernising Confucian manifestations

Chinese National Security Andrew Scobell,Larry M. Wortzel,2005 This volume represents the fruits of a conference held at the U S Army War College in September 2005 on the theme of Chinese Crisis Management One of the major debates that emerged among participants was whether all the case studies under examination constituted crises in the eyes of China s leaders The consensus was that not all of those incidents were perceived as crises As a result the rubric of decision making under stress was adopted as presenters revised their papers for publication **The China Journal** ,1997 **The China Reader** Orville Schell,David Shambaugh,1999 The China Reader The Reform Era is a compilation by two astute China watchers of the most important documents articles and statements on China from 1972 to the present Here are the voices of the experts from Chinese analyses of the fall of Soviet Communism to Western exposes of an ecological crisis that threatens global weather patterns into the next millennium Here too are the artifacts of an era from regulations to control Chinese cyber space to a Party member s Orwellian justification of the military crackdown in Tiananmen Square The China Reader is
