Dayton's Department Store Mary Firestone,2007 Dayton s department store grand in scope and company spirit enjoyed a century in the limelight as one of the nation s leading retailers Its disappearance has been a challenge to the community but it is a sign of the times as many other urban department stores have shared the same fate Originally called Goodfellows the store got its start in 1902 when real estate investor and banker George Draper Dayton became a silent partner in the business He soon took over the company but had to learn the ropes of retail as he went along since he had never intended to become a merchant The early years were not without struggles but Dayton s department store was nevertheless an instant hit with its daylight filled aisles generous return policies and quality merchandise The Minneapolis store became a vibrant self contained community with a post office newspaper infirmary laundry bakery and even a college Daytonians worked and played together around the clock in baseball and bowling teams glee clubs and orchestras Over time the reach of Dayton s extended far into the upper Midwest with stores in North Dakota South Dakota and Wisconsin including the development of the nation s first indoor mall

Originating as simple one or two room storefront operations Cleveland s department stores grew as population and industry in the region boomed throughout the late 19th century and the first half of the 20th They moved into ever larger and elaborate structures in an attempt to woo the shopping dollars of blue collar and genteel Clevelanders alike Stores such as Halle s Higbee s May Company Bailey Company Sterling Lindner Davis and others both competed with and complemented one another all the while leaving an indelible mark on the culture of northeast Ohio and beyond From the humble origins of Halle s horse drawn delivery wagons and the elaborate design of Higbee s on Public Square to Christmas favorites like Mr Jingeling and the massive Christmas tree at Sterling Lindner Davis it is all here in crisp black and white images many of which have not been seen in print for decades

Howard, 2015-04-22 The geography of American retail has changed dramatically since the first luxurious department stores sprang up in nineteenth century cities Introducing light color and music to dry goods emporia these palaces of consumption transformed mere trade into occasions for pleasure and spectacle Through the early twentieth century department stores remained centers of social activity in local communities But after World War II suburban growth and the ubiquity of automobiles shifted the seat of economic prosperity to malls and shopping centers The subsequent rise of discount big box stores and electronic shopping accelerated the pace at which local department stores were shuttered or absorbed by national chains But as the outpouring of nostalgia for lost downtown stores and historic shopping districts would indicate these vibrant social institutions were intimately connected to American political cultural and economic identities The first national study of the department store industry *From Main Street to Mall* traces the changing economic and political contexts that transformed the American shopping experience in the twentieth century With careful attention to small town stores as well as glamorous landmarks such as Marshall Field's in Chicago and Wanamaker's in Philadelphia historian Vicki Howard offers a comprehensive account of the uneven trajectory that brought about the loss of locally identified department store firms and the rise of national chains like Macy's and J C Penney She draws on a wealth of primary source evidence to demonstrate how the decisions of consumers government policy makers and department store industry leaders culminated in today's Wal Mart world Richly illustrated with archival photographs of the nation's beloved downtown business centers *From Main Street to Mall* shows that department stores were more than just places to shop *Maison Blanche Department Stores* Edward J.

Branley, 2011 On October 30 1897 S J Schwartz Gus Schullhoefer and Hartwig D Newman with financial backing from banker Isidore Newman opened the Maison Blanche at the corner of Canal Street and Rue Dauphine in New Orleans Converting Schwartz's dry goods store into the city's first department store the trio created a retail brand whose name lasted over a century In 1908 Schwartz tore his store down and built what was the city's largest building 13 stories with his Maison Blanche occupying the first five floors The MB Building became and still is a New Orleans icon and Maison Blanche was a retail leader in the city attracting some of the best and brightest people in the business One of those employees display manager Emile Alline created the store's second icon the Christmas character Mr Bingle in 1947 Mr Bingle continues to spark the imagination of New Orleans children of all ages Even though Maison Blanche has become part of New Orleans's past the landmark Canal Street store lives on as the Ritz Carlton Hotel **Personnel Work in Department Stores** Marjorie Edith

Phillips,2019-11-14 No other branch of business can bear comparison with the wonderful results achieved by Department Stores such a success as has made them the wonder of modern merchandising These stores that have grown to greatness from small beginnings have a force and power behind them that commands general interest Their store keeping rests upon certain well defined principles and not upon chance sensations or experiments *Lost Department Stores of Denver* Mark A. Barnhouse,2018-11-26 Denverites once enjoyed a retail landscape rich with personal touches Revisit May D F s animated holiday windows or the ice skating rink in front of the store Reminisce about the Christmas chandeliers that stretched for four hundred feet on the main floor of the Denver Dry Goods or the elegance of Neusteters with its fashion shows and exclusive merchandise Recall finding that perfect outfit at Fashion Bar and going back to school shopping at Joslins Celebrate salespeople who remembered your name and the comforting feeling of shopping locally where your parents and grandparents shopped Through decades of research and interviews with former staff Denver s unofficial department store historian Mark Barnhouse assembles the ultimate mosaic of the Mile High City s fabulous retail past "The Urban Department Store in America, 1850?930 " Louisa Iarocci,2017-07-05 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants
