Dependency Or Interdependency In Old Age:

Dependency and Interdependency in Old Age Chris Phillipson, Miriam Bernard, Patricia Strang, 2024-05-10 Originally published in 1986 *Dependency and Interdependency in Old Age* presents papers from the British Society of Gerontology annual conference in 1985 The areas covered include the sociology of ageing methodological issues evaluations of service provision ethnographies of growing old historical studies and political perspectives on ageing A creative dialogue between the proponents of these themes was urgently needed at the time and it was hoped that this volume would stimulate such a discussion

Dependency or Interdependency in Old Age J.M.A. Munnichs, J.A. van den Heuvel, 2012-12-06 Although this monograph *Dependency or interdependency in old age* is not the first publication of the European Social Sciences Research Committee ESSRC of the International Association of Gerontology I am happy as former chairman of the Committee 1964 1975 to introduce this book to the readers together with the present chairman So far the activities of the Committee have consisted of co operating in organizing the scientific programme of the tri annual congresses of the International Association of Gerontology IAG and in organizing smaller or bigger symposia and colloquia for social gerontologists Sometimes these meetings were mainly organized for European researchers only sometimes several concurrent colloquia took place in which Americans and other non Europeans participated The Committee the oldest of the IAG was established at a scientific meeting in 1954 at Sheffield U K After that year colloquia were held in 1956 near Copenhagen 1 Denmark in 1957 at Merano 2 Italy in 1959 at Assisi Italy in 1960 at Berkeley Cal

Gerontology and the Construction of Old Age Bryan Green, 2017-09-08 Although attitudes toward the aged and their care are inherent in any society gerontology itself is a relatively recent field of study and practice Gerontology and the Construction of Old Age applies the methods of discourse analysis and textual analysis to texts and documents in this newly evolved and eclectic field Green explores and identifies the literary methods and discursive regularities through which aging and the aged have been made into objects of study and treatment and which together form a mode of knowledge production that will influence future texts in the field Because such formats of representation limit rational diagnoses of problems and rational courses of ameliorative action policy implications in the field of gerontology are a major interest of this study Another interest is methodological Within the broader constructionist approach to social reality Green takes the position of constitutive realism the notion that social reality is linguistically constructed primarily in speech and writing The book's two aims are to describe analytically the field of gerontology The field is important both for its growing academic presence and for its practical effects on discourse and policy concerning old age It also hopes to help develop possibilities of inquiry associated with the linguistic literary and rhetorical turns of social science in recent years *Gerontology and the Construction of Old Age* is a substantive investigation at considerable theoretical depth of gerontology itself as well as a methodological treatise with broader implications for social science as it focuses upon the discourse of various professional fields

Personhood, Identity

and Care in Advanced Old Age Higgs, Paul, Gilleard, Chris, 2016-10-05 As humans live longer the elderly population increases and the challenges we face in addressing their needs continue to evolve This book explores the theoretical and practical issues raised by advanced aging in the contemporary world Developing new sociological theory Paul Higgs and Chris Gilleard suggest that mental and physical frailty forms a central theme in narratives about deep old age and that discussions of personhood are needed to address this concept After examining key terms like personhood the fourth age frailty and abjection Higgs and Gilleard consider the broader implications of these concepts for issues of care both its meanings and its management As the care needs of the elderly and options for meeting these needs grow more complex it is important to examine our collective hopes and fears concerning the end of life including questions about personhood and expectations for the quality and content of end of life care
