John B. Arden

Depression In The Young What We Can Do To Help Them:

Depression in the Young Trudy Carlson, 1997 **High Five Discipline** Candice W. Jones, 2021-12-01 When confronting the challenge of disciplining their children moms and dads often default to the ways their own parents disciplined them sometimes with harmful results In **High Five Discipline** mom and practicing pediatrician Dr Candice Jones shows parents a better way Dr Jones coaches parents to understand their child s developmental stages and their own motivations to create a family discipline plan that manages misbehavior and encourages good behavior Her advice is packed with developmentally appropriate strategies to tame tantrums stop sibling squabbles and reward better behavior to create a calmer more harmonious home **Brain2Brain** John B. Arden, 2015-01-08 Overcome resistance and fully engage clients by bringing neuroscience into treatment **Brain2Brain Enacting Client Change Through the Persuasive Power of Neuroscience** applies the popular topic of neuroscience in mental health to everyday practice showing therapists how to teach their clients brain based strategies for making changes and improving their lives Cutting edge findings in neuroscience are translated into language that clients will understand and sidebars provide therapists more detailed information relating to particular disorders With a holistic approach that incorporates mental spiritual and physical skills knowledge and exercises this book provides a clear complete resource for incorporating neuroscience into therapy Case examples illustrate how the material can be used with different types of clients and situations and sample dialogues and client handouts help therapists easily incorporate these techniques into their practice Many clients forget that there is a biological basis for everything the brain does and the ways that activity manifests everyday good or bad healthy or dysfunctional the very core of human consciousness boils down to a series of electrical impulses This book helps therapists bring neuroscience into therapy to teach clients how to work with their brain s innate processes to reinforce progress and achieve healthier outcomes Learn techniques for dealing with client resistance factors Discover phrases and memory aides that help clients apply what they ve learned in therapy Facilitate higher client motivation to engage in the therapeutic process Teach clients about the brain s relevance to their particular problem Find tools for explaining the role of diet exercise and sleep in mental health When a client s treatment revolves around eliminating harmful thought patterns or behaviors the therapeutic process can feel like a battle against their own brain By bringing neuroscience into the treatment plan therapists can shift the client s perspective to a more collaborative mindset focused on the positive aspects of change **Brain2Brain Enacting Client Change Through the Persuasive Power of Neuroscience** provides the guidance therapists need to chart a clearer path to good mental health
