Depth Psychology and a New Ethic Erich Neumann, 1969 The modern world has witnessed a dramatic breakthrough of the dark negative forces of human nature The old ethic which pursued an illusory perfection by repressing the dark side has lost its power to deal with contemporary problems Erich Neumann was convinced that the deadliest peril now confronting humanity lay in the scapegoat psychology associated with the old ethic We are in the grip of this psychology when we project our own dark shadow onto an individual or group identified as our enemy failing to see it in ourselves The only effective alternative to this dangerous shadow projection is shadow recognition acknowledgement and integration into the totality of the self Wholeness not perfection is the goal of the new ethic Depth Psychology and a New Ethic Erich Neumann, 1990-06-10 The modern world has witnessed a dramatic breakthrough of the dark negative forces of human nature The old ethic which pursued an illusory perfection by repressing the dark side has lost its power to deal with contemporary problems Erich Neumann was convinced that the deadliest peril now confronting humanity lay in the scapegoat psychology associated with the old ethic We are in the grip of this psychology when we project our own dark shadow onto an individual or group identified as our enemy failing to see it in ourselves The only effective alternative to this dangerous shadow projection is shadow recognition acknowledgement and integration into the totality of the self Wholeness not perfection is the goal of the new ethic *Depth Psychology and a New Ethic* Erich Neumann, 1973 The modern world has witnessed a dramatic breakthrough of the dark negative forces of human nature The old ethic which pursued an illusory perfection by repressing the dark side has lost its power to deal with contemporary problems Erich Neumann was convinced that the deadliest peril now confronting humanity lay in the scapegoat psychology associated with the old ethic We are in the grip of this psychology when we project our own dark shadow onto an individual or group identified as our enemy failing to see it in ourselves The only effective alternative to this dangerous shadow projection is shadow recognition acknowledgement and integration into the totality of the self Wholeness not perfection is the goal of the new ethic *Depth psychology and a New ethic, tr* Erich Neumann, Life and Work of Erich Neumann Angelica Löwe, 2020-05-10 Life and Work of Erich Neumann On the Side of the Inner Voice is the first book to discuss Erich Neumann s life work and relationship with C G Jung Neumann 1905 1960 is considered Jung s most important student and in this deeply personal and unique volume Angelica L we casts Neumann s comprehensive work in a completely new light Based on conversations with Neumann s children Rali Loewenthal Neumann and Professor Micha Neumann L we explores Neumann s childhood and adolescent years in Part I including how he met his wife and muse Julie Blumenfeld In Part II the book traces their life and work in Tel Aviv where they moved in the early 1930s amid growing anti Jewish tensions in Hitler s Germany Finally in Part III L we analyses Neumann s most famous works This is the first book length discussion of the existential questions motivating Neumann s work as well as the socio historical circumstances pertaining to the problem of Jewish identity formation against rising anti Semitism in the

early 20th century It will be essential reading for Jungian analysts and analytical psychologists in practice and in training as well as scholars of Jungian and post Jungian studies and Jewish studies

**Knots and their Untying: Essays on Psychological Dilemmas** Ann Belford Ulanov, Using the image of knots that are hard and sometimes impossible to untie Ann Ulanov circles around the psychic dilemmas that entangle us sometimes for decades These can be heartrending to us and destructive to others even to those we love Yet these knots so peculiarly our own also open onto human problems we share with others even across the ages Hence working on our knots takes us far down to taproots of energy and far up and out to bring that vital aliveness into shared existence with others Knots thus comprise a ladder offering footholds and handholds for descending and ascending between what Jung calls Below and Above human and divine What are such knots What to do when forgiveness does not happen What to do with the inferiority of the inferior function With the question of how much lightning can we stand With the perils of individuation These are just a few examples from the essays in this book The reader is invited to browse the essays according to personal interest or to read straight through The surprise is that these vexing knots that tie us up and hold us down also give us a mooring they bind us to a path that is uniquely our own that can bear the fruit of our service to others and to the surrounding whole

Jungian Perspectives on Indeterminate States Elizabeth Brodersen,Pilar Amezaga,2020-08-09 In Jungian Perspectives on Indeterminate States Betwixt and Between Borders Elizabeth Brodersen and Pilar Amezaga bring together leading international contributors to analyse and interpret the psychological impact of contemporary border crossing both literally and figuratively Each chapter assesses key themes such as migration culture gender and identity formation through a Jungian lens All the contributors sensitively explore how creative forms can help mitigate the trauma experienced when one is forced to leave safety and enter unknown territory and examines the specific role of indeterminacy liminality and symbols as transformers at the border between culture race and gender The book asks whether we are able to hold these indeterminate states as creative liminal manifestations pointing to new forms integrate the shadow other as potential and allow sufficient cross border migration and fertilization as permissible It makes clear that societal conflict represents a struggle for recognition and identity and elucidates the negative experiences of authoritarian structures attached to disrespect and misrecognitions This interdisciplinary collection will offer key insight for Jungian analysts in practice and in training psychotherapists anthropologists political and cultural theorists and postgraduate researchers in psychosocial studies It will also be of great interest to readers interested in migration sexuality gender race and ethnicity studies

*Depth Public Relations* Johanna Fawkes,2022-12-23 Contemporary global culture rooted in neoliberalism and free market forces increasingly emphasises appearance over substance People and organisations are judged by image and reputation while social media encourages and enables us to develop our own public persona This book explores the rise of promotional communication with a particular focus on public relations PR and its role Organisations

from local charities to multinational corporations employ professional PR staff to manage promotional communication and even public institutions must position themselves in the marketplace to secure funding and approval To what extent has PR contributed to this culture of display this masquerade of emptiness This book argues that the climate crisis demands not more performance but a new approach one of depth public relations This concept builds on ideas not only from public relations but also psychology sociology and philosophy as well as introducing the voices of climate activists and others seeking a deeper relationship with the human and non human worlds The proposed principles of depth public relations offer suggestions for theory and practice with profound implications for PR and related fields and will interest all scholars of the changing communication environment *The Vision Thing* Thomas Singer, 2014-01-14 Contemporary politics goes on at a mythic level This is the provocative argument put forward in this unique book which results from the collaboration of practising politicians organisational and political consultants scholars of mythology and culture and Jungian analysts from several countries The first part of the book focuses on leadership and vision and features a reflection on myth and leadership by former U S Senator Bill Bradley The second part deals with the way the theme of the one and the many works itself out in politics today From the perspective of the many there are chapters on factionalism ethnic strife genocide and multiculturalism From the perspective of the one there are chapters on the economic myth and gender politics showing how these bring coherence to today's confused political scene culminating in the suggestion that the modern political psyche is itself in the midst of a rite of passage The relevance of the book to the practice and study of politics mainstream and marginal cannot be overemphasised and the book will provide stimulating reading for practitioners and students in these areas as well as for those engaged in psychological work such as therapy counselling or analysis Hispanófila, 1990 The Collected Works of C. G. Jung: Miscellaneous writings Carl Gustav Jung, 1976 **Business Ethics 3.0** Erhard Meyer-Galow, 2018-05-22 The reputation of business managers is declining due to their disregard for moral decisions and ethical practices Business students are currently taught only technical knowledge without concern for being compassionately and holistically engaged However when entering the business sector these graduates encounter a world which necessitates difficult personally challenging decisions ones for which technical knowledge is insufficient Successful sustainable resolutions can only be expected to result from a holistic sustainable approach which accommodates the difficulty in balancing ethical practices with the demands for ever increasing profits This unique graduate textbook addresses the issue of business ethics from the perspective of an individual's internal growth facilitated by a consideration of the principles of depth psychology spiritual wisdom meditation and quantum physics written by a CEO with an enormous business background It not only promotes a new ethical approach but also addresses the implementation of this new approach in the most important business sectors as a replacement for previous ineffective codes of conduct which have failed It's a must read for business students with aspirations of becoming managers or entrepreneurs in the economic sector as well as for all young

professionals managers and entrepreneurs to improve their ethical performance and sustainable success Message from the author This book creates an impetus for change in a business world where unethical practices are rampant by providing a suggested a New Integral Ethics for the economy an ethical approach based upon inner psychological and spiritual development arising from a serious consideration of Depth Psychology Readers will learn how adoption of specific Practices which lead to inner growth and spiritual maturity will result in ethical morally sound business practices not because they are mandated but because once the SELF is actualized you cannot do otherwise Laws appeals and directives which have never successfully resulted in ethical practices become unnecessary replaced by intrinsically ethical individuals who collectively influence corporate ethical behaviour This is a giant leap into a new dimension in our globalized digitized economy Business Ethics 3 0 by Erhard Meyer Galow provides a much needed beacon of light to a segment of our society that seem to be sinking deeper and deeper into darkness The term business ethics once an important topic within the business community has slowly descended through the fog of profitable ends justifying unprincipled means to become nothing more than a self contradictory oxymoron especially among large international corporations In Business Ethics 3 0 Erhard Meyer Galow has taken a fresh approach that appeals to individual personal growth rather than the usual proffering of academic arguments that are not implementable in the real world of relentless Machiavellian competition Only through raising and improving individual awareness and responsibility can real long term change have a chance of developing Business Ethics 3 0 is on the right track with a positive and compelling message may it succeed where the academics have failed Thomas Campbell physicist consciousness researcher author of My big TOE Finalist at the 2018 Humanistic Management Book Awards
