

The background of the book cover is a landscape photograph. It shows a wide, flat field in the foreground, possibly a marsh or a dry lake bed, with some low vegetation. In the middle ground, there are dark, silhouetted hills or mountains. The sky is filled with dramatic, layered clouds, with a bright, warm light source (likely the sun) breaking through on the left side, creating a gradient of orange, yellow, and pink across the upper half of the image.

Der Sterbende See:

The Catholic Rubens Willibald Sauerlander, 2014-04-15 The art of Rubens is rooted in an era darkened by the long shadow of devastating wars between Protestants and Catholics In the wake of this profound schism the Catholic Church decided to cease using force to propagate the faith Like Gian Lorenzo Bernini Peter Paul Rubens 1577 1640 sought to persuade his spectators to return to the true faith through the beauty of his art While Rubens is praised for the baroque passion in his depictions of cruelty and sensuous abandon nowhere did he kindle such emotional fire as in his religious subjects Their color warmth and majesty but also their turmoil and lamentation were calculated to arouse devout and ethical emotions This fresh consideration of the images of saints and martyrs Rubens created for the churches of Flanders and the Holy Roman Empire offers a masterly demonstration of Rubens s achievements liberating their message from the secular misunderstandings of the postreligious age and showing them in their intended light Catalogue of (printed) music. Music. Accessions, pt.[1]-94 British museum dept. of pr. books, 1884 Voices of Conscience Nicole Reinhardt, 2016-09-29 Voices of Conscience analyzes how the link between politics and conscience was articulated and shaped throughout the seventeenth century by confessors who acted as counsellors to monarchs Against the backdrop of the momentous intellectual theological and political shifts that marked this period the study examines comparatively how the ethical challenges of political action were confronted in Spain and France and how questions of conscience became a major argument in the hegemonic struggle between the two competing Catholic powers As Nicole Reinhardt demonstrates counsel of conscience was not a peripheral feature of early modern political culture but fundamental for the definition of politics and conscience Tracing the rise and fall of confessors as counsellors reveals the parallel transformation of both approaching a historical understanding of the modernisation of politics with the idea of an individual conscience at its heart Placed at the junction of norms and practices royal confessors directly or in oblique reflection shaped the ways in which the royal conscience was identified and scrutinized By the same token the royal confessors expertise and activities remained a source of anxiety and conflict that triggered wide debate on the relationship between State and Church religion and politics The notion of counsel of conscience of which this book provides the first in depth analysis allows the reader to re examine and challenge fundamental historical paradigms such as the emergence of absolutism individualisation and the division of public and private Putting theological concepts and religious dimensions back into political theory and practice sheds new light not only on the importance of counselling for early modern statecraft but also on the reconfiguration of the normative frameworks underlying it **The Bulletin of the Bibliographical Society of America** Bibliographical Society of America, 1910 British Museum Catalogue of Printed Books , 1884 *The expositor's Greek Testament [with comm. by various scholars] ed. by W.R.
