Der entzauberte Magier

Zur paradoxen Situation des Schulpsychologen

Vom Schulpsychologen erwartet man oft geradezu magische Fähigkeiten: Er soll „Problemfälle“ behandeln, Störfaktoren beseitigen und einen reibungslosen Ablauf des Schulbetriebs garantieren. Aber keiner von denen, die den Schulpsychologen um sein Eingreifen bitten – Lehrer, Schüler, Eltern – tut das „für sich selbst“, keiner fühlt sich als „Klient“. Das Feld, das ihm zugewiesen wird, ist immer „die Pathologie der anderen“. Die Unzufriedenheit mit dieser paradoxen beruflichen Rolle führte die Autoren mit der Mailänder Familientherapeutin Mara Selvini Palazzoli zusammen, um mit Hilfe des system theoretischen Modells der Familientherapie neue schulpsychologische Arbeitsformen zu finden.

Der Entzauberte Magier:

Der entzauberte Magier, 1991 M(ara) Selvini Palazzoli [u.a.] *Der entzauberte Magier (Il mago smagato, dt.) Zur paradoxen Situation d. Schulpsychologen*, 1978 **Der entzauberte Magier zur paradoxen Situation des Schulpsychologen Klett-Cotta** M. Selvini Palazzoli, Ulrike Stopfel, 1976 *Teachers Investigate Their Work* Herbert Altricher, Allan Feldman, Peter Posch, Bridget Somekh, 2005-09-29 *Teachers Investigate Their Work* introduces the methods and concepts of action research through examples drawn from studies carried out by teachers. The book is arranged as a handbook with numerous sub headings for easy reference and forty one practical methods and strategies to put into action some of them flagged as suitable starters. Throughout the book the authors draw on their international practical experience of action research working in close collaboration with teachers. It is an essential guide for teachers, senior staff and coordinators of teacher professional development who are interested in investigating their own practice in order to improve it.

Teacher Thinking & Professional Action Dr Pam Denicolo, Michael Kompf, 2005-10-09 Over the past twenty years the International Study Association on Teachers and Teaching ISATT has become world renowned as an organisation dedicated to the discussion of current thinking in educational policy and practice. As such the ideas aired at ISATT conferences are of the greatest significance to today's educational practitioners. This book satisfies the demand for a lasting record of ISATT's illuminating discussions on the theme. It is based on a selection of papers presented at their third bi-annual conference and has been updated by each contributor to include their current thoughts and opinions. Containing nineteen articles each an in-depth examination of the topic, it is divided into four sections: conceptual frames for teacher thought and action, methods and approaches to the study of teacher thought and action, teacher judgment and evaluation of students, teacher thinking and teacher education. Broad in theme, international in scope and detailed, this book is essential and enlightening reading for anyone with a serious interest in the ongoing development of educational thought. **Initial Training for History**

Teachers Alois Ecker, 2003-01-01 The Council of Europe's work on history teaching in secondary schools has three main thrusts: curriculum development, textbooks and teaching materials, and teacher training, which should take into account societal developments and the cultural needs of coming generations. This pilot study is the first comparative study on the structures of initial training for history teachers to be carried out in several European countries. Its aim is to provide information that will raise the level of professionalism not only of history teaching but also of teacher training. Publisher's description

Psychiatry the State of the Art P. Pichot, 2012-12-06 The purpose of the World Psychiatric Association is to coordinate the activities of its Member Societies on a world-wide scale and to advance enquiry into the etiology, pathology and treatment of mental illness. To further this purpose the Association organizes mono or multi-thematic Regional Symposia in different parts of the world twice a year and World Congresses dealing with all individual fields of psychiatry once every five or six years. Between these meetings the continuation of the Association's scientific work is assured through the activities of

its specialty sections each covering an important field of psychiatry The programs of the World Congresses reflect on the one hand the intention to present the coordinating functions of the Association and on the other to open a broad platform for a free exchange of views Thus the VII World Congress of Psychiatry held in Vienna from July 11 to 16 1983 was composed of two types of scientific events those structured by the Association and those left to the initiative of the participants The first type comprised Plenary Sessions planned by the Scientific Program Committee and Section Symposia organized by the WPA sections the second embraced Free Symposia free papers video sessions and poster presentations prepared by the participants Altogether 10 Plenary Sessions 52 Section Symposia and 105 Free Symposia took place and 78 free papers and poster sessions and 10 video sessions were held
