Derbyshire Gentry In The Fifteenth Century:

The Derbyshire Gentry in the Fifteenth Century S. M. Wright, 1983 Derbyshire in the later Middle Ages was a poor thinly populated county whose economic importance lay mainly in the lead industry of the Peak With no major lay or ecclesiastical landowner in the county politics and society were dominated by local gentry ranging from knights whose wealth approached that of a minor peer to modest squires They were the influential resident landowners who controlled local administration engaged in the lead trade and sought office under the Duchy of Lancaster the main agent of Crown influence in the county The gentry of fifteenth century Derbyshire had made themselves the acknowledged rulers of the county and did not welcome intrusion from outside Dr Wright's book brings this society to life There are chapters on the sources of gentry income and how they spent it how they organised their households and estates provided for and negotiated the marriages of their children and arranged their affairs after death how they controlled local office chose Members of Parliament and dealt with the Crown Duchy and magnates notably Lord Hastings and how they quarrelled amongst themselves and tried to regulate such conflict both within and without the system of royal justice

Social Attitudes and Political Structures in the Fifteenth Century Tim Thornton, 2001-02-13 This volume includes papers on political religious social and economic history and the history of ideas during the 15th century The papers challenge existing conceptions and open new avenues of discussion on longstanding debates Themes covered include parliaments and their relationships with the monarchs of the period both in Scotland and in England queens and their role in the 15th century English polity the ideas that lay behind the English claims to the French throne and the rituals of peace making in the Hundred Years War Debates over the importance of lordship and service are also touched upon in a paper which examines Lord Hastings retainers in the defence of Calais while another chapter discusses the local politics of a small Welsh marcher lordship The crucial subject of Lancastrian government finances in the 1450s also receives a fresh examination In religious history papers examine the activity of monastic propagandists and the religious life of cathedrals through the activity of fraternities based in them There are also considerations of a noble widow and of the 15th century rural economy

Politics and the Urban Sector in Fifteenth-Century England, 1413-1471 Eliza Hartrich, 2019-08-14 Since the mid twentieth century political histories of late medieval England have focused almost exclusively on the relationship between the Crown and aristocratic landholders Such studies however neglect to consider that England after the Black Death was an urbanising society Towns not only were the residence of a rising proportion of the population but were also the stages on which power was asserted and the places where financial and military resources were concentrated Outside London however most English towns were small compared to those found in contemporary Italy or Flanders and it has been easy for historians to underestimate their ability to influence English politics *Politics and the Urban Sector in Fifteenth Century England 1413 1471* offers a new approach for evaluating the role of urban society in late medieval English politics Rather than focusing on English towns individually it

creates a model for assessing the political might that could be exerted by towns collectively as an urban sector Based on primary sources from twenty two towns ranging from the metropolis of London to the tiny Kentish town of Lydd Politics and the Urban Sector demonstrates how fluctuations in inter urban relationships affected the content pace and language of English politics during the tumultuous fifteenth century In particular the volume presents a new interpretation of the Wars of the Roses in which the relative strength of the urban sector determined the success of kings and their challengers and moulded the content of the political programmes they advocated

Twelve Good Men and True J. S. Cockburn, Thomas A. Green, 2014-07-14 Twelve Good Men and True brings together some of the most ambitious and innovative work yet undertaken on the history of an English legal institution These eleven essays examine the composition of the criminal trial jury in England the behavior of those who sat as jurors and popular and official attitudes toward the institution of jury trial from its almost accidental emergence in the early thirteenth century until 1800 The essays have important implications for three problems central to the history of criminal justice administration in England the way in which the medieval jury was informed and reached its verdict the degree and form of independence enjoyed by juries during the early modern period when the powers of the bench were very great and the role of the eighteenth century trial jury which although clearly independent was by virtue of the status and experience of its members arguably a mere extension of the bench This extensive collection marks the first occasion on which scholars working in several different time periods have focused their attention on the history of a single legal institution Written by J M Beattie J S Cockburn Thomas A Green Roger D Groot Douglas Hay P J R King P G Lawson Bernard William McLane J B Post Edward Powell and Stephen K Roberts the essays utilize sophisticated techniques to establish from a variety of manuscript sources the wealth status and administrative experience of jurors Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Revolution and Consumption in Late Medieval England Michael A. Hicks, 2001 Conspicuous consumption in the 15th century both offers causes for revolt and allows reconstruction of regional supply and trading networks The essays in this volume focus on the sources and resources of political power on consumption royal and lay conspicuous and everyday on political revolution and on economic regulation in the later middle ages Topics range from the diet of the nobility in the fifteenth century to the knightly household of Richard II and the peace commissions while particular case studies of Middlesex Cambridge Durham Cathedral and Winchester shed new light on regional economies through an examination of the patterns of consumption retailing and marketing Professor MICHAEL HICKS teaches at King Alfred s College at Winchester Contributors CHRISTOPHER WOOLGAR ALASTAIR DUNN

The World of the Stonors Elizabeth Noble, 2009 First full length survey of the Stonors an important gentry family during the middle ages exploring the wide connections they fostered The Stonor letters and papers are second in quantity only to the Paston letters Nevertheless while studies of the parvenu Pastons of Norfolk abound no historian has used the Stonor archive to write about this significantly longer established gentry family from Oxfordshire despite the fact that their letters and papers have been available in print since the early twentieth century and have been recently re issued This present study helps to rectify that oversight It argues that lineage land and lordship were crucial elements in the Stonors world both materially and culturally providing them with status and identity They asserted their gentle lineage using a range of symbolic and other means but did not neglect the more mundane management of their scattered lands Ties of lordship with the influential helped them to retain these lands and it is clear that the Stonors worked hard to foster relationships with kin and neighbours indeed their letters and papers allow us a far more extensive yet intimate view of all these social ties extending over several counties than is usually possible for the gentry Dr ELIZABETH NOBLE teaches in the School of the Humanities University of New England New South Wales

Rodney Hilton's Middle Ages Rodney Howard Hilton, Christopher Dyer, Peter R. Coss, Chris Wickham, 2007 This collection of essays based on original research is an exploration of the sort of themes which Rodney Hilton worked on in the light of recent research particularly lord peasant relationships revolts and urban commercial development It aims at summing up where these themes are at present and where they will go in the future The volume was edited by Christopher Dyer Peter Coss and Chris Wickham
