Dermatology And Skin Care:

The Skin Type Solution Leslie Baumann, 2006 Dermatologist Baumann provides a program that is revolutionizing the way people everywhere think about and shop for skin care. Whereas previous books identified only four basic skin types through clinical research, Dr. Baumann discovered that there are actually sixteen distinctly different skin types, each with unique needs all its own. But caring for your skin doesn't have to be complicated. Dr. Baumann has tested her program on thousands of patients, developing a system that is already transforming dermatology. Now her proven program is available to you. Discover your personal skin type profile detailing what will work and what won't for your unique complexion, an extensive product guide to name brands suited to every skin type and budget, natural health and dietary advice for beautiful skin, tips on preventing aging and problem skin, the latest information on the new world of prescription products, facials, chemical peels, Retin A, Botox, and collagen injections. The Beauty of Dirty Skin Whitney Bowe, 2018-04-17 Internationally renowned dermatologist and research scientist Dr Whitney Bowe presents for the first time the connection between a healthy gut and radiant, clear skin with a 21-day program to maximize skin health and beauty. Every year, nearly 80 million Americans will consult their doctors about their skin. In fact, skin disorders beat out anxiety, depression, back pain and diabetes as the number one reason Americans see their doctors. Unfortunately, however, the vast majority will receive only a surface-level treatment, leaving the underlying conditions at the root of their skin issues unresolved. Skin doesn't lie; it reflects overall health in unimaginable ways. In *The Beauty of Dirty Skin*, internationally renowned dermatologist and scientist Dr Whitney Bowe shows readers that skin health is much more than skin deep. As a pioneering researcher on the cutting edge of the gut-brain-skin axis, she explains how the spectrum of skin disorders, from stubborn acne and rosacea to psoriasis, eczema and premature wrinkling, are manifestations of irregularities rooted in the gut. Lasers, scalpels, creams and prescription pads alone will not guarantee the consistently healthy, glowing skin we all seek. Instead, Dr Bowe focuses on the
