Derrida And Negative Theology:

Derrida and Negative Theology Jacques Derrida, 1992-08-25 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought negative theology and philosophy in both Western and Eastern traditions Following the Introduction by Toby Foshay two of Derrida's essays on negative theology *Of an Apocalyptic Tone Newly Adopted in Philosophy* and *How to Avoid Speaking Denials* are reprinted here These are followed by essays from a Western perspective by Mark C Taylor and Michel Despland and essays from an Eastern perspective by David Loy a Buddhist and Harold Coward a Hindu In the Conclusion Jacques Derrida responds to these discussions Negative Theology and Modern French Philosophy Arthur Bradley, 2004 This book explores contemporary French philosophical readings of negative theology It is the first general and comparative treatment of the role of negative theology in contemporary French thought **Hope in a Secular Age** David Newheiser, 2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope *The Trespass of the Sign* Kevin Hart, 1991-08-30 The Trespass of the Sign offers an account of the relations between deconstruction and theology Kevin Hart argues that contrary to popular thought on the topic deconstruction does not have an antitheological agenda Rather deconstruction seeks to question the metaphysics of any theology Hart pays particular attention to mystical theology as nonmetaphysical theology From publisher's description **Impossible God** Hugh Rayment-Pickard, 2018-12-07 Impossible God introduces Derrida's theology for a new generation interested in Derrida's writings and in the future of theology and clarifies Derrida's theology for those already familiar with his writings Derrida's theological concerns are now widely recognised but Impossible God shows how Derrida's theology takes its shape from his earliest writings on Edmund Husserl and from explorations into Husserl's unpublished manuscripts on time and theology Rayment Pickard argues that Derrida goes beyond both the nihilism of the death of God and the denials of negative theology to affirm a theology of God's impossibility Derrida's impossible God is not another God of the philosophers but a powerful deity capable of wakening us into faith ethical responsibility and love Showing how central theology has been to Derrida's philosophy since the beginning of his career Impossible God presents an accessible study of a neglected area of Derrida's writing which students of philosophy and theology will find invaluable

Contemporary Debates in Negative Theology and Philosophy Nahum Brown, J. Aaron Simmons, 2017-11-24 In this volume scholars draw deeply on negative theology in order to consider some of the oldest questions in the philosophy of religion that stand as persistent challenges to inquiry comprehension and expression The chapters engage different philosophical methodologies cross disciplinary boundaries and draw on varied cultural traditions in the effort to demonstrate that apophaticism can be a positive resource for contemporary philosophy of religion *Derrida and Theology* Steven Shakespeare, 2009-06-25 Jacques Derrida a name to strike fear into the hearts of theologians His ideas have been hugely influential in shaping postmodern philosophy and its impact has been felt across the humanities from literary studies to

architecture However he has also been associated with the specters of relativism and nihilism Some have suggested he undermines any notion of objective truth and stable meaning Derrida is now increasingly seen as a major contributor to thinking about the complexity of truth responsibility and witnessing Theologians and biblical scholars are engaging as never before with Derrida's own deep rooted reflections on religious themes From the nature of faith to the name of God from Messianism to mysticism from forgiveness to the impossible he has broken new ground in thinking about religion in our time His ideas and writing style remain highly complex however and can be a forbidding prospect for the uninitiated This book examines his philosophical approach his specific work on religious themes and the ways in which theologians have interpreted adopted and disputed them

The Anathema of Negativity Amy Goicoechea, 1996 *Acts of Religion* Jacques Derrida, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informal company

The Prayers and Tears of Jacques Derrida John D. Caputo, 1997-09-22 The Prayer and Tears of Jacques Derrida takes its point of departure from Derrida's more recent sometimes autobiographical writings and closely examines the religious motifs that have emerged in his later works John D Caputo's provocative interpretation of Derrida's thinking also makes an original contribution to the question of the relevance of deconstruction for religion Caputo's Derrida is a man of faith who bridges Jewish and Christian traditions The deep messianic apocalyptic and prophetic tones in Derrida's writings Caputo argues bespeak his broken covenant with Judaism Through its startling exploration of Derrida's impossible religion the book sheds light on the implications of deconstruction for an understanding of religion and faith today from back cover

Negative Theology as Jewish Modernity Michael Fagenblat, 2017-02-27 Negative theology is the attempt to describe God by speaking in terms of what God is not Historical affinities between Jewish modernity and negative theology indicate new directions for thematizing the modern Jewish experience Questions such as What are the limits of Jewish modernity in terms of negativity Has this creative tradition exhausted itself and How might Jewish thought go forward anchor these original essays Taken together they explore the roots and legacies of negative theology in Jewish thought examine the viability and limits of theorizing the modern Jewish experience as negative theology and offer a fresh perspective from which to approach Jewish intellectual history

A Theology of Failure Marika Rose, 2019-05-07 Everyone agrees that theology has failed but the question of how to understand and respond to this failure is complex and contested Against both the radical orthodox attempt to return to a time before the theology's failure and the deconstructive theological attempt to open theology up to the hope of a future beyond failure Rose proposes an account of Christian identity as constituted by not despite failure Understanding failure as central to theology opens up new possibilities for confronting Christianity's violent and kyriarchal history and abandoning the attempt to discover a pure Christ outside of the grotesque materiality of the church The Christian mystical tradition begins with Dionysius the Areopagite's uncomfortable but productive conjunction of Christian theology and Neoplatonism The tensions generated by this are central to Dionysius's legacy visible not only in subsequent theological

thought but also in much twentieth century continental philosophy as it seeks to disentangle itself from its Christian ancestry. A Theology of Failure shows how the work of Slavoj Žižek represents an attempt to repeat the original move of Christian mystical theology bringing together the themes of language, desire and transcendence not with Neoplatonism but with a materialist account of the world. Tracing these themes through the work of Dionysius and Derrida and through contemporary debates about the gift, violence and revolution, this book offers a critical theological engagement with Žižek's account of social and political transformation showing how Žižek's work makes possible a materialist reading of apophatic theology and Christian identity.

On the Name Jacques Derrida, 1995. The name. What does one call thus? What does one understand under the name of name? And what occurs when one gives a name? What does one give then? One does not offer a thing; one delivers nothing and still something comes to be, which comes down to giving that which one does not have. As Plotinus said of the Good: What happens above all when it is necessary to surmount naming there where precisely the name comes to be found lacking? What makes the proper name into a sort of sur-name, pseudonym or cryptonym, at once singular and singularly untranslatable? Jacques Derrida thus poses a central problem in contemporary language, ethics and politics which he addresses in a linked series of the three essays. *Passions*. An Oblique Offering is a reflection on the question of the response on the duty and obligation to respond and on the possibility of not responding which is to say on the ethics and politics of responsibility. *Sauf le nom*. Post-Scriptum considers the problematics of naming and alterity or transcendence raised inevitably by a rigorous negative theology. Much of the text is organized around close readings of the poetry of Angelus Silesius. The final essay *Khora* explores the problem of space or spacing of the word *khora* in Plato's *Timaeus*. Even as it places and makes possible nothing less than the whole world, *khora* opens and dislocates, displaces all the categories that govern the production of that world from naming to gender. In addition to readers in philosophy and literature, *Khora* will be of special interest to those in the burgeoning field of space studies, architecture, urbanism, design.

God, the Gift, and Postmodernism John D. Caputo, Michael J. Scanlon, 1999-12-22. Pushing past the constraints of postmodernism which cast reason and religion in opposition, *God the Gift and Postmodernism* seizes the opportunity to question the authority of the modern and open the limits of possible experience including the call to religious experience as a new millennium approaches. Jacques Derrida, the father of deconstruction, engages with Jean-Luc Marion and other religious philosophers to entertain questions about intention, givenness and possibility which reveal the extent to which deconstruction is structured like religion. New interpretations of Kant, Heidegger, Husserl and Derrida emerge from essays and discussions with distinguished philosophers and theologians from the United States and Europe. The result is that *God the Gift and Postmodernism* elaborates a radical phenomenology that stretches the limits of its possibility and explores areas where philosophy and religion have become increasingly and surprisingly convergent. Contributors include John D. Caputo, John Dominic Crossan, Jacques Derrida, Robert Dodaro, Richard Kearney, Jean-Luc Marion, Françoise Meltzer, Michael J. Scanlon, Mark C. Taylor, David

Tracy Merold Westphal and Edith Wyschogrod *Silence and the Word* Oliver Davies, Denys Turner, 2002-08-15 Negative theology or apophasis the idea that God is best identified in terms of absence otherness difference has been influential in modern Christian thought resonating as it does with secular notions of negation developed in continental philosophy Apophasis also has a strong intellectual history dating back to the early Church Fathers *Silence and the Word* both studies the history of apophasis and examines its relationship with contemporary secular philosophy Leading Christian thinkers explore in their own way the extent to which the concept of the apophatic illumines some of the deepest doctrinal structures of Christian faith and of Christian self understanding both in terms of its historical and contemporary situatedness showing how a dimension of negativity has characterised not only traditional mysticism but most forms of Christian thought over the years *Barth, Derrida and the Language of Theology* Graham Ward, 1995 This study offers a new and original analysis of the problem of religious language Taking as its starting point Karl Barth's doctrine of analogy it places this doctrine within the context of German *Sprache* and *Rede* philosophies and reveals the historical links between them and the work of the philosophers Emmanuel Levinas and Jacques Derrida Drawing out the parallels between this work and Barth's insights into the language of theology it concludes that Barth's doctrine of analogy is a theological reading of Derrida's economy of difference This important contemporary interpretation of Karl Barth reveals his closeness to postmodern thinking and underlines his relevance to current debates on the language of theology It will be of interest to those studying both general questions of theology and language and the particular relationship between theology and postmodernism **Deconstruction in a Nutshell** Jacques Derrida, 2020-11-03 This volume now with a substantial new Introduction represents one of the most lucid compact and reliable introductions to Derrida and deconstruction available in any language Responding to questions put to him at a roundtable held at Villanova University in 1994 Jacques Derrida leads the reader through an illuminating discussion of the central themes of deconstruction Speaking in English and extemporaneously Derrida takes up with unusual clarity and great eloquence such topics as the task of philosophy the Greeks justice responsibility the gift community and the messianic Derrida refutes the charges of relativism that are often leveled at deconstruction by its critics and sets forth the profoundly affirmative and ethico political thrust of his work The roundtable is marked by an unusual clarity that continues into the second part of the book in which one of Derrida's most influential readers John D Caputo elaborates upon Derrida's comments and supplies material for further discussion This edition also includes a substantial new Introduction by Caputo that discusses the original context of the book and traces the development of deconstruction since Derrida's death in 2004 from the rise of new materialisms to return to religion Long one of the most lucid and reliable introductions to Derrida and deconstruction available in any language and an ideal volume for students *Deconstruction in a Nutshell* will also prove illuminating for those already familiar with Derrida's work **The Trace of God** Edward Baring, Peter E. Gordon, 2021-05-20 Derrida's most lasting legacy might well be his writings on religion If the perplexed seek a guide they can

do no better than this excellent volume Warren Breckman University of Pennsylvania Jacques Derrida's writings on the question of religion have played a crucial role in the transformation of scholarly debate across the globe *The Trace of God* provides a compact introduction to this debate It considers Derrida's fraught relationship to Judaism and his Jewish identity broaches the question of Derrida's relation to the Western Christian tradition and examines both the points of contact and the silences in Derrida's treatment of Islam An astonishingly fresh and vivid set of essays that not only cast new light on the work of the greatest philosophical provocateur of the late twentieth century but also provide food for reflecting today on the relations among violence modernity secularity and religion Allan Megill University of Virginia

Beyond the Limits of Language Agata Wilczek, 2016 The book analyses a mode of apophasis in contemporary theoretical discourse It explores the relationship between negative theology and Jacques Derrida's textual practice as well as the similarities between apophasis and the trope of transgression in the works of Maurice Blanchot George Bataille or Michel Foucault

Post-metaphysics and the Paradoxical Teachings of Jesus Cameron Freeman, 2010 *Post Metaphysics and the Paradoxical Teachings of Jesus* The Structure of the Real uncovers the authentic voice print of Jesus teachings on the Kingdom of God and thereby outlines a new approach to theological language after the end of metaphysics By showing that the paradoxical deep structure of Jesus most radical teachings survives the Death of God and the deconstruction of metaphysics in twentieth century continental philosophy this book aims to reconstruct the original teachings of Jesus in a way that can begin a new conversation on what it means to be a Christian in a post Christian world while drawing on a remarkable range of supporting material including John D Caputo's award winning theological appropriation of Derrida's deconstruction the pioneering work of John Dominic Crossan on the parables of Jesus and the novel insights of Jesus Seminar scholars Robert Funk and Branden Scott Beginning with questions surrounding the end of metaphysics in Martin Heidegger's existentialist philosophy and moving on to the ethico political dimensions of Derrida's work this volume examines Nicholas of Cusa's notion of God as the coincidence of opposites Buddhist genius Nagarjuna's dialectic of Emptiness and the Hindu concept of non duality in raising the possibility of a post metaphysical theology Following an original unpacking of the parables of Jesus the central thesis is woven together with reference to Moltmann's important work on the crucified God as well as Kierkegaard and the Absolute Paradox negative mystical theology in the Christian tradition twentieth century Japanese philosopher Nishida Kitaro and aspects of Nietzsche Thomas Aquinas Plato Aristotle Meister Eckhart G K Chesterton Slavoj Zizek and Ken Wilber
