Derrida, Kristeva, and the Dividing Line Juliana De Nooy, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory      **Hegel and the Art of Negation** Andrew W.

Hass, 2013-11-12 Why is the philosopher Hegel returning as a potent force in contemporary thinking Why after a long period when Hegel and his dialectics of history have seemed less compelling than they were for previous generations of philosophers is study of Hegel again becoming important Fashionable contemporary theorists like Francis Fukuyama and Slavoj Žižek as well as radical theologians like Thomas Altizer have all recently been influenced by Hegel the philosopher whose philosophy now seems somehow perennial or to borrow an idea from Nietzsche eternally returning Exploring this revival via the notion of negation in Hegelian thought and relating such negativity to sophisticated ideas about art and artistic creation Andrew W. Hass argues that the notion of Hegelian negation moves us into an expansive territory where art religion and philosophy may all be radically conceived and broken open into new forms of philosophical expression The implications of such a revived Hegelian philosophy are the author argues vast and current Hegel thereby becomes the philosopher par excellence who can address vital issues in politics economics war and violence leading to a new form of globalised ethics Hass makes a bold and original contribution to religion philosophy art and the history of ideas      Theory as World Literature Jeffrey R. Di Leo, 2024-12-26 The first collection to consider what it means for theory to be considered as a species of world literature and vice versa What does it mean for theory to be considered as a species of not just literature but world literature This volume offers a wide range of accounts of how the worlding of literature both problematizes the national categorizing of theory e.g. French theory and brings new meanings and challenges to the coming together of theory and literature In sum it presents theory as world literature as a viable alternative to more commonplace approaches to theory Under such an approach to theory what it means to be an African American or Asian theorist let alone a French German or Spanish one in the new millennium is as complicated or simple as what means to be African American or Asian Worlded literature is not considered here as only the world literature of nations and nationalities Rather it is also the worlded literature of individuals crossing borders mixing stories and speaking in dialect So too is it the worlded literature of the multinational corporate publishing industry wherein success in the global market is a major determinate of aesthetic and literary value Offering accounts of what it means to consider theory as world literature the authors in this pioneering collection explore the ways in which we might regard theory as connected and reconnected through global literary networks of increasing complexity and precarity By approaching theory from this perspective Theory as World Literature demonstrates how and why theory is more worldly now than ever      **Scientific Theology: Nature** Alister E. **Arbeit am Abscheu** Claude Haas,2007 Die Arbeit entdeckt erstmalig die immense Bedeutung des Abscheus im Werk Thomas Bernhards. Diesem wird eine für sein Schreiben konstitutive Funktion zugesprochen, die die Prosa poetologisch und politisch neu situiert. Weit davon entfernt ein beliebiges Motiv darzustellen, berührt der Abscheu nahezu alle Dimensionen von Bernhards Schreiben. Seine Texte sind durchtränkt von einer prononcierten Ekel-Semantik, die ihren Umgang sowohl mit soziohistorischen und politischen Phänomenen als auch ihre Reflexion fremden und eigenen Schreibens neu lesbar macht. Den wichtigsten theoretischen Bezugspunkt bildet dabei die in Deutschland bisher viel zu wenig rezipierte Ekeltheorie Julia Kristevas, die auch eine systematische Reformulierung der bei Bernhard hochproblematischen gender Konstellationen ermöglicht. Kristevas Konzepte sind dabei allerdings nicht als Metamodell zu begreifen; vielmehr werden sie ihrerseits kritisch mit Bernhard konfrontiert.
