Whether you're just starting out or looking to scale, this book will change the way you work forever. **GET YOUR COPY TODAY** Podcasting and Education

Carola Boehm, Tim Canfer, Camilo Salazar, 2025-07-31 Podcasting and Education: Concepts, Communities, and Case Studies provides both theoretical frameworks and real-life examples to support readers in the use of podcasting as a medium in education. This edited collection brings together the collective experience of educators from around the world who use podcasting in their pedagogical toolset, providing a rich, diverse collection of practical insights for educating through podcasting. Readers will be able to gain a deeper understanding of the diversity of opportunities for embedding audio into the classroom, learn from practitioners and educators who have been using podcasting in education for years, and gather ideas from inspirational case studies that represent models which can be adapted, adopted, or amended to suit a variety of contexts. This book will be of interest to both educators and podcasters with an interest in facilitating learning journeys in day-to-day settings, educational classrooms, and academia, as well as instructors of all kinds, including those teaching audio media production and journalism.

Artificial Intelligence Is Here to Stay, You Better Learn It Now! Patience Fuzane, Artificial Intelligence (AI) is no longer just a futuristic concept; it is here, and it is transforming the way we live, work, and interact. If you are not actively harnessing the power of AI, you risk being left behind in an increasingly competitive and fast-paced world. Just like the calculator revolutionized the way we perform basic arithmetic, AI is now stepping in to revolutionize a wide array of fields: academic, business, and social. When the calculator was first introduced, many feared it would take away jobs and diminish mental faculties. But over time, we have come to view it as an indispensable tool, one that saves us time and allows us to focus on more complex tasks. In much the same way, AI is poised to become an essential part of our daily lives, yet its potential goes far
