*Podcasting in a Platform Age* John L. Sullivan, 2024-01-25 *Podcasting in a Platform Age* explores the transition underway in podcasting by considering how the influx of legacy and new media interest in the medium is injecting professional and corporate logics into what had been largely an amateur media form. Many of the most high profile podcasts today however are produced by highly skilled media professionals some of whom are employees of media corporations. Legacy radio and new media platform giants like Google, Apple, Amazon and Spotify are also making big and expensive moves in the medium by acquiring content producers and hosting platforms. This book focuses on three major aspects of this transformation: formalization, professionalization and monetization. Through a close read of online and press discourse, analysis of podcasts themselves, participant observations at podcast trade shows and conventions and interviews with industry professionals and individual podcasters, John Sullivan outlines how the efforts of industry players to transform podcasting into a profitable medium are beginning to challenge the very definition of podcasting itself.

**Mental Health and Wellbeing for Journalists** Hannah Storm, 2024-05-24 This book offers a first of its kind practical and person-centred guide to managing and contextualising journalists' emotional wellbeing and mental health. Drawing on the author's experience as a storyteller, journalist and media safety consultant, the book combines significant lived personal experience with reflections from an international network of journalists and mental health experts to collate industry good practice and guidance. It takes readers through a history of mental health discussions in the industry, moving from a focus on war correspondents and post-traumatic stress disorder to considerations of vicarious trauma, moral injury and the impact of online harm on journalists. It shows how pressures already faced by those in the sector have been exacerbated by the global pandemic, giving rise to the prospect of a mental health crisis in the media if these issues remain unaddressed. As a counter to this concern, Storm shares insights from experts on what leaders can do to create safer workplaces and processes, how they can channel the empathy that is core to healthy journalism to promote the health of its people and how they should consider mental health as intersecting with other issues such as physical safety, diversity and inclusion. Insights from science shed light on resilience levels, how our brains and bodies respond to trauma and strategies that can be adopted to help us recover from challenging experiences. While acknowledging that some news organisations are starting to take note, Storm shows how others need to do more, offering ways in which newsrooms can learn from the lessons of recent years to bring about long-lasting change. *Mental Health and Wellbeing for Journalists* is written for news media professionals, educators and students as well as anyone interested in promoting more sustainable journalism through supporting the industry's most precious resource: its people.
