Bonnie Brennen illustrates the nuanced thinking and numerous reasons why people choose to use some new technologies and reject others. Some interviewees opt out of digital technologies because of their ethical, political, environmental, religious, or cultural beliefs. Other people consider new media superficial diversions that do not meet their expectations, needs, or interests, while some citizens worry about issues of privacy and security and reject digital technologies because of their fears. Still, other people construct their cultural identities through the choices they make about their use of new media. In many cases, the use or nonuse of digital technologies offers specific representations of how people assert their independence, authority, and agency over new media, while in some cases, the choices that people make about new technologies also illustrate their class position or socioeconomic status. *Opting Out of Digital Media* responds to the growing, opting-out trend, addressing the developments in the unplugging phenomenon. It serves as the ideal text for any reader interested in the role of digital technologies in our lives and how it has become a part of a mainstream movement. *New York Magazine*
