Beginner's Guide to Search Engine Optimization

SEO stands for "search engine optimization." In other words, SEO means the process of improving your website to increase its visibility in Google, Microsoft Bing, and other search engines. And that's exactly what you want to do.

- Provide good content
- Research your keywords
- Understand the needs of your audience

The better content your pages have in search results, the more likely you are to be found and clicked on. Otherwise, the goal of "search engine optimization" is lost. And that's exactly what you want to avoid. So, to make sure your website is in the best position possible to rank, you need to understand the needs of your audience and provide them with the best content possible.

How is SEO different from SEM and PPC?

SEM and PPC are two other content marketing strategies that are often used in conjunction with SEO. SEM stands for "search engine marketing" and PPC stands for "pay per click." Both are used to drive traffic to your website, but they are different from SEO in that they are paid strategies.

SEO vs. SEM

SEO stands for "search engine optimization" and is the most commonly used content marketing strategy.
