Resources in Education, 1976 Technology for Good Jim Fruchterman, 2025-09-02 A visionary guide to using technology for positive social change from a MacArthur genius awardee former rocket engineer and passionate leader in the social enterprise movement The accepted wisdom in big business is that the only worthy ideas are ones that make a lot of money preferably billions But Jim Fruchterman believes there is a different path for technology What if tech returned to its roots and made people more effective and powerful What if the benefits of technology came to the 90 percent of humanity traditionally neglected by for profit companies in favor of immense profits gained by focusing on the richest 10 percent In *Technology for Good* Fruchterman explores that question and delivers a comprehensive how to for leaders who want to create expand join support and improve organizations that see building technology as a key element of delivering on their social good mission The author makes a strong case that tech is required for social change at scale He then offers guidance on how to structure fund staff manage scale and sustain nonprofits that leverage technology for social good The book includes actionable proven practices compelling case studies of nonprofits that have cracked the code on tech for good and Fruchterman's own stories of what he has learned as a tech for good entrepreneur With 80 percent of the examples in the book from organizations and individuals outside the US *Technology for Good* is a call to action with a genuinely global focus blazing a path toward a future in which human beings come rightly and justly before profits *Artful AI in Writing Instruction* Brett Vogelsinger, 2025-05-14 Discover strategies to use AI

thoughtfully in every stage of the writing process without compromising creativity or critical thinking. Feeling conflicted about integrating artificial intelligence AI into your writing instruction? You're not alone. In a world where AI-generated text can seem like a writing teacher's enemy, incorporating it into writing instruction may feel like an act of betrayal. The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking. *Artful AI in Writing Instruction* offers strategies and lessons for middle and high school teachers to harness AI in a positive way, integrating it into the writing process and evaluating the ethics of its usage. Written by a full-time high school teacher, Brett Vogelsinger, the book focuses on evergreen principles and ideas rather than specific AI tools, providing concrete steps and lessons that teachers can implement without being technology experts. Acknowledging the varying perspectives of teachers on AI in writing instruction, from skepticism to enthusiasm, Brett offers a human-centered, considered, and ethical approach to using generative AI in the classroom. Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process, this book provides standards-aligned lessons that detail how AI can support instruction and assist students at each step of the writing process, from prewriting through publishing. Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom. Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction. Includes chapter features such as quotes from esteemed writers, real teacher and student voices, cautionary notes, and Bot Thoughts entries of example AI output. *Artful AI in Writing Instruction* is a book that explores technology with humility, critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development.
